Introduction to 2 Chronicles

Part 1: General Introduction

Outline of 2 Chronicles

1. Solomon rules the kingdom (1:1–9:28)
2. Solomon put on the throne of David, his father (1:1-17)
3. Solomon builds the temple of Yahweh (2:1–5:1)
4. Solomon dedicates the temple (5:2–7:22)
5. The life of Solomon (8:1–9:28)
7. From Rehoboam to Zedekiah (10:1–36:21)
8. The edict of Cyrus, permitting Israel to return to Canaan (36:22–23)

What are 1 and 2 Chronicles about?

The Book of 1 Chronicles retells the line of descendants from Adam to Saul. It then gives the history of Israel during the time of David. The Book of 2 Chronicles gives the history of Israel beginning with Solomon. It ends when the Babylonian army attacks Judah and takes some of the people to Babylon. The writers of Chronicles probably wrote these books for the Jews who returned from exile in Babylon. The purpose was to teach the people to avoid disobeying God as their ancestors did.

How should the title of this book be translated?

Translators can use the traditional title “2 Chronicles” or “Second Chronicles.” You may also call this book “The Events of the Kings of Judah and Israel, Book 2” or “The Second Book of the Events of the Kings of Judah and Israel.”

Who wrote 1 and 2 Chronicles?

The writers of 1 and 2 Chronicles are unknown. They mention that they used other books when writing Chronicles. The names of these other books are “The Chronicles of Samuel the Seer,” “The Chronicles of Nathan the Seer,” “The Chronicles of Gad the Seer,” “The History of Nathan the Prophet,” “The Chronicles of Shemaiah the Prophet and Iddo,” “The Story of the Prophet Iddo” and “The books of the kings of Judah and Israel.”

Why are there multiple books that give the history of the kings of Israel?

The books of Chronicles and the books of Kings tell much of the same history, but they are not exactly the same. The writers of Chronicles wrote mostly about the kings of Judah who were faithful to Yahweh and his covenant. The writers wanted the Jews to think carefully about David and Solomon. They also wanted the Jews to think about how Jehoshaphat, Hezekiah, and Josiah caused their ancestors to repent and to worship Yahweh. The writers wanted to encourage the Jews and their leaders to obey the law and to honor God’s covenant with them. (See: covenant)

Part 2: Important Religious and Cultural Concepts

Why did God punish the people of Israel?

God punished the people of Israel because they disobeyed him and worshiped false gods. God punished them with disease, disasters, and defeat in battle. However, God forgave them and caused them to prosper again if they repented and obeyed him. The writers of 1 and 2 Chronicles continually reminded the readers that God punished his people because they disobeyed. They wanted the readers to understand that they must obey God.
Why are alliances with foreign countries seen as evil in these books?

Yahweh led and protected the nation of Israel. The people of Israel should have trusted him instead of relying on other nations to protect them.

Part 3: Important Translation Issues

What is the meaning of the term “Israel”?

The name “Israel” is used in many different ways in the Bible. Jacob was the son of Isaac. God changed Jacob’s name to Israel. The descendants of Jacob became a nation also called Israel. Eventually, the nation of Israel split into two kingdoms. The northern kingdom was named Israel. The southern kingdom was named Judah.

What does it mean to “seek God”?

The writers of 1 and 2 Chronicles often wrote about “seeking God.” To “seek God” means to make an effort to please and honor God. It can also mean to ask God for help. It does not imply that God is hidden. (See: Metaphor)

What does the phrase “to this day” mean?

The writers used the phrase “to this day” to refer to the time when they were writing. The translator should be aware that “to this day” refers to a time already passed. The translator might decide to say, “to this day, at the time when this is being written,” or, “to this day, at the time of writing.” This Hebrew phrase occurs in 1 Chronicles 4:41, 43; 5:26; 13:11; 20:26; 21:10; 35:25.
2 Chronicles 1

2 Chronicles 1 General Notes

Structure and formatting

This chapter begins a section about King Solomon's reign (2 Chronicles 1-9).

Special concepts in this chapter

Wisdom

Solomon asks God for wisdom to rule God's people. God is pleased with this request because it is used to serve others. Therefore, God also gives Solomon tremendous wealth and a long life. (See: wise, wisdom and people of God)
2 Chronicles 1:1

*was strengthened in his rule*

This can be stated in active form. Alternate translation: “gained complete control over his kingdom” or “ruled powerfully over his kingdom” (See: Active or Passive)

**Yahweh**

This is the name of God that he revealed to his people in the Old Testament. See the translationWord page about Yahweh concerning how to translate this.

**God was with him**

Here “was with him” is an idiom. Alternate translation: “God supported him” or “God helped him” (See: Idiom)

2 Chronicles 1:2

General Information:

It may be helpful to reorder the events in these verses as in the UST. (See: Order of Events)

spoke to all Israel, to the commanders...heads of the fathers' house

Here “all of Israel” means those people mentioned afterwards. They represent all of Israel. Alternate translation: “spoke to the commanders...heads of the father's house”

the commanders of thousands and of hundreds

Possible meanings are 1) these numbers represent the exact amount of soldiers that these commanders led. 2 Chronicles 10 General Notes

Structure and formatting

This begins a section on King Rehoboam. (2 Chronicles 10-12)

Special concepts in this chapter

Rehoboam's taxes

The people asked Solomon's son, Rehoboam, to reduce the heavy taxes and the forced labor Solomon had demanded but Rehoboam refused. He lacked the wisdom to follow the advice of the men who had been councilors of his father Solomon. So the ten northern tribes broke off and made Jeroboam their king. They were called “Israel” and Rehoboam's kingdom was called Judah. This will cause confusion between the northern kingdom of Israel and the whole nation of Israel. (See: wise, wisdom)

This chapter is the beginning of the story of Queen Athaliah.

Important figures of speech in this chapter

Metaphor

The author compares Athaliah's evil deeds to Ahab's family's evil lives: "walked in the ways of the house of Ahab." Ahab is pictured as the epitome of evil. (See: Metaphor and evil, wicked, unpleasant and work, works, deeds)
The inhabitants of Jerusalem made Ahaziah, Jehoram's youngest son, king in his place, for the band of men that came with the Arabians into the camp had killed all his older sons. So Ahaziah son of Jehoram, king of Judah, became king.

The people of Jerusalem appointed Jehoram's youngest son Ahaziah to be their king, because the men from Philistia who had invaded Judah with some Arabs had killed all of Jehoram's other sons. So Ahaziah started to rule Judah.

Structure and formatting

The story of King Joash is completed in this chapter.

Special concepts in this chapter

Joash repairs the temple

Joash decided to repair the temple. The Levites collected money from people and gave it to the workmen to repair the temple. This was a sign of worship towards Yahweh. (See: temple and sign, proof, reminder)

Joash becomes evil

When Joash stopped worshiping Yahweh, he had many troubles. Joash remained loyal to Yahweh as long as the chief priest lived, but when the chief priest died Joash started following other gods. The chief priest's son warned him that he would have trouble, so he had him killed. The army of Aram defeated and plundered him and his servants murdered him. Moreover, Amaziah gathered Judah together, and registered them by their ancestors' houses, under commanders of thousands and commanders of hundreds—all of Judah and Benjamin. He numbered them from twenty years old and upward, and found them to be 300,000 chosen men, able to go to war, who could handle spear and shield.

Amaziah summoned the men of the tribes of Judah and Benjamin to come to Jerusalem, and there he put them into groups, each clan in a group by themselves. Then he appointed officers to command each group. Some officers commanded one hundred men, and some commanded one thousand men. They counted the men who were at least twenty years old; altogether there were 300,000 men. They were all men who were ready to be in the army, and able to fight well, using spears and shields.

3 For in the eighth year of his reign, while he was still young, he began to seek after the God of David, his ancestor. In the twelfth year, he began to cleanse Judah and Jerusalem from the high places, the Asherah poles, and the carved figures and the cast metal figures.

11 Then they slaughtered the Passover lambs. The priests sprinkled the blood from the bowls that were handed to them, while the other descendants of Levi removed the skins from the animals.
They removed the burnt offerings, in order to distribute them to the divisions of the ancestral houses of the people, to offer them to Yahweh, as it is written in the Book of Moses. They did the same with the bulls.

They set aside the animals to be completely burned on the altar, in order to give them to the various family groups to offer to Yahweh, obeying the instructions that were written in the laws God gave Moses. They did the same thing with the cattle.

The word “house” is a metonym for the family that lives in the house. Alternate translation: “the families that were the descendants of their ancestors” (See: Metonymy)

They later prepared offerings for themselves and for the priests, because the priests, the descendants of Aaron, were occupied in offering the burnt offerings and the fat until nightfall, so the Levites prepared the offerings for themselves and for the priests, the descendants of Aaron.

After that, they prepared meat for themselves and for the priests, because the priests were busy until nighttime, sacrificing the offerings to be completely burned and burning the fat parts of the offerings. So the descendants of Levi prepared meat for themselves and for the priests, who were descendants of Aaron, the first high priest.

Here the noun “word” can be translated with the verb “spoke.” The word “mouth” represents Jeremiah. Alternate translation: “what Yahweh spoke through Jeremiah” or “the word from Yahweh that Jeremiah spoke” (See: Synecdoche)

until the land should have enjoyed its Sabbath rests

The people were supposed to obey the Sabbath law by not farming the land every seventh year. This phrase speaks about this as if the land were a person that would obey the Sabbath law and rest. Alternate translation: “until the land had rested according to the Sabbath law” or “until, as required by the Sabbath law, no one had farmed the land” (See: Personification)

It observed its Sabbath for as long as it lay abandoned

The word “it” refers to the land. The land is spoken of as if it were a person who observed the Sabbath. Alternate translation: “The requirements of the Sabbath law were fulfilled as long as the land lay abandoned” (See: Personification)

Abstract Nouns

Abstract nouns are nouns that refer to attitudes, qualities, events, or situations. These are things that cannot be seen or touched in a physical sense, such as happiness, weight, unity, friendship, health, and reason. This is a translation issue because some languages may express a certain idea with an abstract noun, while others would need a different way to express it.

Description

Remember that nouns are words that refer to a person, place, thing, or idea. Abstract Nouns are the nouns that refer to ideas. These can be attitudes, qualities, events, situations, or even relationships among these ideas. These are things that cannot be seen or touched in a physical sense, such as joy, peace, creation, goodness, contentment, justice, truth, freedom, vengeance, slowness, length, weight, and many, many more.

Some languages, such as Biblical Greek and English, use abstract nouns a lot. It is a way of giving names to actions or qualities so that people who speak these languages can talk about them as though they were things. For example, in languages that use abstract nouns, people can say, “I believe in the forgiveness of sin.” But some languages do not use abstract nouns very much. In these languages, they may not have the two abstract nouns “forgiveness” and “sin,” but they would express the same meaning in other ways. They would say, for example, “I believe that God is willing to forgive people after they have sinned,” using verb phrases instead of nouns for those ideas.

Reason this is a translation issue

The Bible that you translate from may use abstract nouns to express certain ideas. Your language might not use abstract nouns for some of those ideas; instead, it might use phrases to express those ideas. Those phrases will use other kinds of words such as adjectives, verbs, or adverbs to express the meaning of the abstract noun. For example, “What is its weight?” could be expressed as “How much does it weigh?” or “How heavy is it?”

Examples from the Bible

...from *childhood* you have known the sacred writings... (2 Timothy 3:15 ULT)

The abstract noun “childhood” refers to when someone is a child.

But godliness with contentment is great gain. (1 Timothy 6:6 ULT)

The abstract nouns “godliness” and “contentment” refer to being godly and content. The abstract noun “gain” refers to something that benefits or helps someone.

Today salvation has come to this house, because he too is a son of Abraham. (Luke 19:9 ULT)

The abstract noun “salvation” here refers to being saved.

The Lord does not move slowly concerning his promises, as some consider slowness to be (2 Peter 3:9 ULT)

The abstract noun “slowness” refers how slowly something is done.

He will bring to light the hidden things of darkness and reveal the purposes of the heart. (1 Corinthians 4:5 ULT)

The abstract noun “purposes” refers to the things that people want to do and the reasons they want to do them.
Translation Strategies

If an abstract noun would be natural and give the right meaning in your language, consider using it. If not, here is another option:

1. Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

Examples of Translation Strategies Applied

(1) Reword the sentence with a phrase that expresses the meaning of the abstract noun. Instead of a noun, the new phrase will use a verb, an adverb, or an adjective to express the idea of the abstract noun.

But being godly and content is very beneficial.
But we benefit greatly when we are godly and content.
But we benefit greatly when we honor and obey God and when we are happy with what we have.

Today salvation

The Lord does not move slowly concerning his promises, as some consider slowness

to be. (2 Peter 3:9 ULT)

The Lord does not move slowly concerning his promises, as some consider moving slowly to be.

of the heart. (1 Corinthians 4:5 ULT)

He will bring to light the hidden things of darkness and reveal the things that people want to do and the reasons that they want to do them.

Active or Passive

Some languages use both active and passive sentences. In active sentences, the subject does the action. In passive sentences, the subject is the one that receives the action. Here are some examples with their subjects underlined:

- **ACTIVE**: My father built the house in 2010.
- **PASSIVE**: The house was built in 2010.

Translators whose languages do not use passive sentences will need to know how they can translate passive sentences that they find in the Bible. Other translators will need to decide when to use a passive sentence and when to use the active form.

Description

Some languages have both active and passive forms of sentences.

- In the **ACTIVE** form, the subject does the action and is always mentioned.
- In the **PASSIVE** form, the action is done to the subject, and the one who does the action is not always mentioned.

In the examples of active and passive sentences below, we have underlined the subject.

- **ACTIVE**: My father built the house in 2010.
- **PASSIVE**: The house was built by my father in 2010.
- **PASSIVE**: The house was built in 2010. (This does not tell who did the action.)

Reasons this is a translation issue

All languages use active forms. Some languages use passive forms, and some do not. Some languages use passive forms only for certain purposes, and the passive form is not used for the same purposes in all of the languages that use it.

Purposes for the passive

- The speaker is talking about the person or thing the action was done to, not about the person who did the action.
- The speaker does not want to tell who did the action.
- The speaker does not know who did the action.

Translation Principles Regarding the Passive

- Translators whose language does not use passive forms will need to find another way to express the idea.
- Translators whose language has passive forms will need to understand why the passive is used in a particular sentence in the Bible and decide whether or not to use a passive form for that purpose in his translation of the sentence.

Examples from the Bible

And their shooters shot at your soldiers from off the wall, and some of the king’s servants were killed, and your servant Uriah the Hittite was killed, too. (2 Samuel 11:24 ULT)
This means that the enemy's shooters shot and killed some of the king's servants, including Uriah. The point is what happened to the king's servants and Uriah, not who shot them. The purpose of the passive form here is to keep the focus on the king's servants and Uriah.

In the morning when the men of the town got up, the altar of Baal was broken down... (Judges 6:28 ULT)

The men of the town saw what had happened to the altar of Baal, but they did not know who broke it down. The purpose of the passive form here is to communicate this event from the perspective of the men of the town.

It would be better for him if a millstone were put around his neck and he were thrown into the sea. (Luke 17:2 ULT)

This describes a situation in which a person ends up in the sea with a millstone around his neck. The purpose of the passive form here is to keep the focus on what happens to this person. Who does these things to the person is not important.

**Translation Strategies**

If your language would use a passive form for the same purpose as in the passage that you are translating, then use a passive form. If you decide that it is better to translate without a passive form, here are some strategies that you might consider.

1. Use the same verb in an active sentence and tell who or what did the action. If you do this, try to keep the focus on the person receiving the action.
2. Use the same verb in an active sentence, and do not tell who or what did the action. Instead, use a generic expression like “they” or “people” or “someone.”
3. Use a different verb.

**Examples of Translation Strategies Applied**

(1) Use the same verb in an active sentence and tell who did the action. If you do this, try to keep the focus on the person receiving the action.

A loaf of bread was given him every day from the street of the bakers. (Jeremiah 37:21 ULT)

*The king's servants gave* Jeremiah a loaf of bread every day from the street of the bakers.

(2) Use the same verb in an active sentence, and do not tell who did the action. Instead, use a generic expression like “they” or “people” or “someone.”

It would be better for him if a millstone were put around his neck and he were thrown into the sea. (Luke 17:2 ULT)

It would be better for him if they were to put a millstone around his neck and throw him into the sea.

It would be better for him if someone were to put a heavy stone around his neck and throw him into the sea.

(3) Use a different verb in an active sentence.

A loaf of bread was given him every day from the street of the bakers. (Jeremiah 37:21 ULT)

He received a loaf of bread every day from the street of the bakers.

Assumed Knowledge and Implicit Information

- **Assumed knowledge** is whatever a speaker assumes his audience knows before he speaks and gives them some kind of information. The speaker does not give the audience this information because he believes that they already know it.
- When **the speaker does give the audience information**, he can do so in two ways:
  - **Explicit information** is what the speaker states directly.
  - **Implicit information** is what the speaker does not state directly because he expects his audience to be able to learn it from what he says.

Description

When someone speaks or writes, he has something specific that he wants people to know or do or think about. He normally states this directly. This is **explicit information**.

The speaker assumes that his audience already knows certain things that they will need to think about in order to understand this information. Normally he does not tell people these things, because they already know them. This is called **assumed knowledge**.

The speaker does not always directly state everything that he expects his audience to learn from what he says. **Implicit information** is information that he expects people to learn from what he says even though he does not state it directly.

Often, the audience understands this **implicit information** by combining what they already know (**assumed knowledge**) with the **explicit information** that the speaker tells them directly.

Reasons this is a translation issue

All three kinds of information are part of the speaker’s message. If one of these kinds of information is missing, then the audience will not understand the message. Because the target translation is in a language that is very different than the biblical languages and is made for an audience that lives in a very different time and place than the people in the Bible, many times the **assumed knowledge** or the **implicit information** is missing from the message. In other words, modern readers do not know everything that the original speakers and hearers in the Bible knew. When these things are important for understanding the message, it is helpful if you include this information in the text or in a footnote.

Examples from the Bible

Then a scribe came to him and said, “Teacher, I will follow you wherever you go.” Jesus said to him, “Foxes **have holes**, and the birds of the sky **have nests**, but the Son of Man has nowhere to lay his head.” (Matthew 8:20 ULT)

Jesus did not say what foxes and birds use holes and nests for, because he assumed that the scribe would have known that foxes sleep in holes in the ground and birds sleep in their nests. This is **assumed knowledge**.

Jesus did not directly say here “I am the Son of Man” but, if the scribe did not already know it, then that fact would be **implicit information** that he could learn because Jesus referred to himself that way. Also, Jesus did not state explicitly that he travelled a lot and did not have a house that he slept in every night. That is **implicit information** that the scribe could learn when Jesus said that he had nowhere to lay his head.

Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in **Tyre and Sidon** which were done in you, they would have repented long ago in sackcloth and ashes. But
it will be more tolerable for Tyre and Sidon at the day of judgment than for you. (Matthew 11:21, 22 ULT)

Jesus assumed that the people he was speaking to knew that Tyre and Sidon were very wicked, and that the day of judgment is a time when God will judge every person. Jesus also knew that the people he was talking to believed that they were good and did not need to repent. Jesus did not need to tell them these things. This is all assumed knowledge.

An important piece of implicit information here is that the people he was speaking to would be judged more severely than the people of Tyre and Sidon would be judged because they did not repent.

Why do your disciples violate the traditions of the elders? For they do not wash their hands when they eat. (Matthew 15:2 ULT)

One of the traditions of the elders was a ceremony in which people would wash their hands in order to be ritually clean before eating. People thought that in order to be righteous, they had to follow all the traditions of the elders. This was assumed knowledge that the Pharisees who were speaking to Jesus expected him to know. By saying this, they were accusing his disciples of not following the traditions, and thus not being righteous. This is implicit information that they wanted him to understand from what they said.

Translation Strategies

If readers have enough assumed knowledge to be able to understand the message, along with any important implicit information that goes with the explicit information, then it is good to leave that knowledge unstated and leave the implicit information implicit. If the readers do not understand the message because one of these is missing for them, then follow these strategies:

1. If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.
2. If readers cannot understand the message because they do not know certain implicit information, then state that information clearly, but try to do it in a way that does not imply that the information was new to the original audience.

Examples of Translation Strategies Applied

(1) If readers cannot understand the message because they do not have certain assumed knowledge, then provide that knowledge as explicit information.

Jesus said to him, "Foxes have holes, and the birds of the sky have nests, but the Son of Man has nowhere to lay his head." (Matthew 8:20 ULT) - The assumed knowledge was that the foxes slept in their holes and birds slept in their nests.

Jesus said to him, “Foxes have holes to live in, and the birds of the sky have nests to live in, but the Son of Man has nowhere to lay his head and sleep.”

it will be more tolerable for Tyre and Sidon

at the day of judgment than for you (Matthew 11:22 ULT) - The assumed knowledge was that the people of Tyre and Sidon were very, very wicked. This can be stated explicitly.

...it will be more tolerable for those cities Tyre and Sidon, whose people were very wicked, at the day of judgment than for you.
or:
...it will be more tolerable for those wicked cities Tyre and Sidon at the day of judgment than for you.

Why do your disciples violate the traditions of the elders? For they do not wash their hands
when they eat. (Matthew 15:2 ULT) - The assumed knowledge was that one of the traditions of the elders was a
ceremony in which people would wash their hands in order to be ritually clean before eating, which they must do
to be righteous. It was not to remove germs from their hands to avoid sickness, as a modern reader might think.

Why do your disciples violate the traditions of the elders? For they do not go through the
ceremonial handwashing ritual of righteousness when they eat.

(2) If readers cannot understand the message because they do not know certain implicit information, then state
that information clearly, but try to do it in a way that does not imply that the information was new to the original
audience.

Then a scribe came to him and said, “Teacher, I will follow you wherever you go.” Jesus
said to him, “Foxes have holes, and the birds of the sky have nests, but the Son of Man
has nowhere to lay his head.” (Matthew 8:19, 20 ULT) - The implicit information is that Jesus
himself is the Son of Man. Other implicit information is that if the scribe wanted to follow Jesus,
he would have to live like Jesus without a house.

Jesus said to him, “Foxes have holes, and the birds of the sky have nests,
but I, the Son of Man, have no home to rest in. If you want to follow me,
you will live as I live.”

it will be more tolerable for Tyre and Sidon at the day of judgment than for you (Matthew
11:22 ULT) - The implicit information is that God would not only judge the people; he would
punish them. This can be made explicit.

At the day of judgment, God will punish Tyre and Sidon, cities whose
people were very wicked, less severely than he will punish you.
or:
At the day of judgment, God will punish you more severely than Tyre and
Sidon, cities whose people were very wicked.

Modern readers may not know some of the things that the people in the Bible and the people who first read it
knew. This can make it hard for them to understand what a speaker or writer says, and to learn things that the
speaker left implicit. Translators may need to state some things explicitly in the translation that the original
speaker or writer left unstated or implicit.
Background Information

Description

When people tell a story, they normally tell the events in the order that they happened. This sequence of events makes up the storyline. The storyline is full of action verbs that move the story along in time. But sometimes a writer may take a break from the storyline and give some information to help his listeners understand the story better. This type of information is called **background information**. The background information might be about things that happened before the events he has already told about, or it might explain something in the story, or it might be about something that would happen much later in the story.

**Example** - The underlined sentences in the story below are all background information.

Peter and John went on a hunting trip because *their village was going to have a feast the next day*. *Peter was the best hunter in the village. He once killed three wild pigs in one day!* They walked for hours through low bushes until they heard a wild pig. The pig ran, but they managed to shoot the pig and kill it. Then they tied up its legs with some rope *they had brought with them*, and carried it home on a pole. When they brought it to the village, Peter's cousin saw the pig and realized that *it was his own pig*. *Peter had mistakenly killed his cousin's pig.*

Background information often tells about something that had happened earlier or something that would happen much later. Examples of these are: “their village was going to have a feast the next day;” “He once killed three wild pigs in one day;” “that they had brought with them;” and “Peter had mistakenly killed his cousins' pig.”

Often background information uses “be” verbs like “was” and “were”, rather than action verbs. Examples of these are “Peter *was* the best hunter in the village” and “*it was* his own pig.”

Background information can also be marked with words that tell the reader that this information is not part of the event line of the story. In this story, some of these words are “because,” “once,” and “had.”

**A writer may use background information**

- To help their listeners be interested in the story
- To help their listeners understand something in the story
- To help the listeners understand why something is important in the story
- To tell the setting of a story
  - Setting includes:
    - where the story takes place
    - when the story takes place
    - who is present when the story begins
    - what is happening when the story begins

**Reasons this is a translation issue**

- Languages have different ways of marking background information and storyline information.
- You (the translator) need to know the order of the events in the Bible, which information is background information, and which is storyline information.
- You will need to translate the story in a way that marks the background information in a way that your own readers will understand the order of events, which information is background information, and which is storyline information.
Examples from the Bible

Hagar gave birth to Abram's son, and Abram named his son, whom Hagar bore, Ishmael. Abram was eighty-six years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

The first sentence tells about two events. Hagar gave birth and Abraham named his son. The second sentence is background information about how old Abram was when those things happened.

Now Jesus himself, when he began to teach, was about thirty years of age. He was the son (as was supposed) of Joseph, the son of Heli. (Luke 3:23 ULT)

The verses before this tell about when Jesus was baptized. This sentence introduces background information about Jesus' age and ancestors. The story starts up again in chapter 4 where it tells about Jesus going to the wilderness.

Now it happened on a Sabbath that Jesus was going through the grain fields and his disciples were picking the heads of grain, rubbing them between their hands, and eating the grain. But some of the Pharisees said... (Luke 6:1-2a ULT)

These verses give the setting of the story. The events took place in a grain field on the Sabbath day. Jesus, his disciples, and some Pharisees were there, and Jesus' disciples were picking heads of grain and eating them. The main action in the story starts with the sentence, “But some of the Pharisees said.”

Translation Strategies

To keep translations clear and natural you will need to study how people tell stories in your language. Observe how your language marks background information. You may need to write down some stories in order to study this. Observe what kind of verbs your language uses for background information and what kinds of words or other markers signal that something is background information. Do these same things when you translate, so that your translation is clear and natural and people can understand it easily.

1. Use your language's way of showing that certain information is background information.
2. Reorder the information so that earlier events are mentioned first. (This is not always possible when the background information is very long.)

Examples of Translation Strategies Applied

(1) Use your language's way of showing that certain information is background information. The examples below explain how this was done in the ULT English translations.

Now

Jesus himself, when he began to teach, was about thirty years of age. He was the son (as was supposed) of Joseph, the son of Heli. (Luke 3:23 ULT)

English uses the word “now” to show that there is some kind of change in the story. The verb “was” shows that it is background information.

With many other exhortations also, he preached good news to the people. John also rebuked Herod the tetrarch for marrying his brother's wife, Herodias, and for all the other evil things that Herod had done. But then Herod did another very evil thing. He had John locked up in prison. (Luke 3:18-20 ULT)

The underlined phrases happened before John rebuked Herod. In English, the helping verb “had” in “had done” shows that Herod did those things before John rebuked him.

(2) Reorder the information so that earlier events are mentioned first.
Hagar gave birth to Abram’s son, and Abram named his son, whom Hagar bore, Ishmael. Abram was eighty-six years old when Hagar bore Ishmael to Abram.

(Genesis 16:16 ULT)

“When Abram was eighty-six years old, Hagar gave birth to his son, and Abram named his son Ishmael.”

John also rebuked Herod the tetrarch for marrying his brother’s wife, Herodias, and for all the other evil things that Herod had done. But then Herod did another very evil thing. He had John locked up in prison. (Luke 3:18-20)

The translation below reorders John's rebuke and Herod's actions.

“Now Herod the tetrarch married his brother’s wife, Herodias, and he did many other evil things, so John rebuked him. But then Herod did another very evil thing. He had John locked up in prison.”

Biblical Distance

Description

The following terms are the most common measures for distance or length that were originally used in the Bible. Most of these are based on the sizes of the hand and forearm.

- The **handbreadth** was the width of the palm of a man’s hand.
- The **span** or handspan was the width of a man’s hand with the fingers spread out.
- The **cubit** was the length of a man’s forearm, from the elbow to the tip of the longest finger.
- The “**long**” cubit is used only in Ezekiel 40-48. It is the length of a normal cubit plus a span.
- The **stadium** (plural, **stadia**) referred to a certain footrace that was about 185 meters in length. Some older English versions translated this word as “furlong”, which referred to the average length of a plowed field.

The metric values in the table below are close but not exactly equal to the biblical measures. The biblical measures probably differed in exact length from time to time and place to place. The equivalents below are an attempt to give an average measurement.

Translation Principles

1. The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.
2. Using modern measures can help readers understand the text more easily.
3. Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.
4. If you do not use the Biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one cubit as “.46 meters” or even as “46 centimeters”, readers might think that the measurement is exact. It would be better to say “half a meter”, “45 centimeters”, or “50 centimeters”.
5. Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, Luke 24:13 says that Emmaus was sixty stadia from Jerusalem. This can be translated as “about ten kilometers” from Jerusalem.
6. When God tells people how long something should be, and when people make things according to those lengths, do not use “about” in the translation. Otherwise it will give the impression that God did not care exactly how long something should be.
Translation Strategies

1. Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)
2. Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.
3. Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.
4. Use the measurements from the ULT and include measurements that your people know in the text or a note.
5. Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Exodus 25:10 below.

They are to make an ark of acacia wood. Its length must be two and a half cubits; its width will be one cubit and a half; and its height will be one cubit and a half. (Exodus 25:10 ULT)

(1) Use the measurements given in the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)

“They are to make an ark of acacia wood. Its length must be two and a half kubits; its width will be one kubit and a half; and its height will be one kubit and a half.”

(2) Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

“They are to make an ark of acacia wood. Its length must be one meter; its width will be two thirds of a meter; and its height will be two thirds of a meter.”

(3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement. For example, if you measure things using the standard meter length, you could translate it as below.

“They are to make an ark of acacia wood. Its length must be one meter; its width will be two thirds of a meter; and its height will be two thirds of a meter.”

(4) Use the measurements from the ULT and include measurements that your people know in the text or a note. The following shows both measurements in the text.

“They are to make an ark of acacia wood. Its length must be two and a half cubits (one meter); its width will be one cubit and a half (two thirds of a meter); and its height will be one cubit and a half (two thirds of a meter).”

(5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note. The following shows the ULT measurements in notes.
“They are to make an ark of acacia wood. Its length must be one meter\textsuperscript{1}; its width will be two thirds of a meter\textsuperscript{2}; and its height will be two thirds of a meter.”

The footnotes would look like:

\begin{itemize}
  \item \textsuperscript{[1]} two and a half cubits
  \item \textsuperscript{[2]} one cubit and a half
\end{itemize}

Biblical Money

Description:

In early Old Testament times, people weighed their metals such as silver and gold and would give a certain weight of that metal in order to buy things. Later people started to make coins that each contained a standard amount of a certain metal. The daric is one such coin. In New Testament times, people used silver and copper coins.

The two tables below show some of the most well-known units of money found in the Old Testament (OT) and New Testament (NT). The table for Old Testament units shows what kind of metal was used and how much it weighed. The table for New Testament units shows what kind of metal was used and how much it was worth in terms of a day’s wage.

Translation Principle

Do not use modern money values since these change from year to year. Using them will cause the Bible translation to become outdated and inaccurate.

Translation Strategies

The value of most money in the Old Testament was based on its weight. So when translating these weights in the Old Testament, see Biblical Weight. The strategies below are for translating the value of money in the New Testament:

1. Use the Bible term and spell it in a way that is similar to the way it sounds. (See Copy or Borrow Words.)
2. Describe the value of the money in terms of what kind of metal it was made of and how many coins were used.
3. Describe the value of the money in terms of what people in Bible times could earn in one day of work.
4. Use the Bible term and give the equivalent amount in the text or a note.
5. Use the Bible term and explain it in a note.

Translation Strategies

The translations strategies are all applied to Luke 7:41 below.
The one owed five hundred denarii, and the other owed fifty denarii. (Luke 7:41 ULT)

(1) Use the Bible term and spell it in a way that is similar to the way it sounds. (See Copy or Borrow Words.)

“The one owed five hundred denarii, and the other owed fifty denarii.”

(2) Describe the value of the money in terms of what kind of metal it was made of and how many pieces or coins were used.

“The one owed five hundred silver coins, and the other owed fifty silver coins.”

(3) Describe the value of the money in terms of what people in Bible times could earn in one day of work.

“The one owed five hundred days’ wages, and the other owed fifty days’ wages.”

(4) Use the Bible term and give the equivalent amount in the text or a footnote.

“The one owed five hundred denarii¹, and the other owed fifty denarii."²

The footnotes would look like:

¹ five hundred days’ wages
² fifty day’s wages

(5) Use the Bible term and explain it in a footnote.

“The one owed five hundred denarii¹, and the other owed fifty denarii.”

(Luke 7:41 ULT)

¹ A denarius was the amount of silver that people could earn in one day of work.
Biblical Volume

Description

The following terms are the most common units of volume used in the Bible to state how much a certain container could hold. The containers and measurements are given for both liquids (such as wine) and dry solids (such as grain). The metric values are not exactly equal to the biblical measures. The biblical measures probably differed in exact amount from time to time and place to place. The equivalents below are an attempt to give an average measurement.

Translation Principles

- The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.
- Using modern measures can help readers understand the text more easily.
- Whatever measures you use, it would be good, if possible, to tell about the other kinds of measures in the text or a footnote.
- If you do not use the Biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one hin as “3.7 liters”, readers might think that the measurement is exactly 3.7 liters, not 3.6 or 3.8. It would be better to use a more approximate measure such as “three and a half liters” or “four liters”.
- When God tells people how much of something to use, and when people use those amounts in obedience to him, do not say “about” in the translation. Otherwise it will give the impression that God did not care exactly how much they used.
When the unit of measure is stated

Translation Strategies

1. Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)
2. Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.
3. Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.
4. Use the measurements from the ULT and include measurements that your people know in the text or a note.
5. Use measurements that your people know, and include the measurements from the ULT in the text or in a note.

Translation Strategies Applied

The strategies are all applied to Isaiah 5:10 below.

For four hectares of vineyard will yield only one bath, and one homer of seed will yield only an ephah. (Isaiah 5:10 ULT)

(1) Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)

“For four hektares of vineyard will yield only one bat, and one homer of seed will yield only an efa.”

(2) Use the measurements given in the UST. Usually they are metric measurements. The translators of the UST have already figured how to represent the amounts in the metric system.

“For four hectares of vineyard will yield only twenty-two liters and 220 liters of seed will yield only twenty-two liters.”

“For four hectares of vineyard will yield only twenty-two liters, and ten baskets of seed will yield only one basket.”

(3) Use measurements that are already used in your language. In order to do this you would need to know how your measurements relate to the metric system and figure out each measurement.

“For four hectares of vineyard will yield only six gallons, and six and a half bushels of seed will yield only twenty quarts.”

(4) Use the measurements from the ULT and include measurements that your people know in the text or a note. The following shows both measurements in the text.

“For four hectares of vineyard will yield only one bath (six gallons), and one homer (six and a half bushels) of seed will yield only an ephah (twenty quarts).”

(5) Use measurements that your people know, and include the measurements from the ULT in the text or in a note. The following shows the ULT measurements in footnotes.

“For four hectares of vineyard will yield only twenty-two liters, and 220 liters of seed will yield only twenty-two liters.”

The footnotes would look like:
When the unit of measure is implied

Sometimes the Hebrew does not specify a particular unit of volume but only uses a number. In these cases, many English versions, including the ULT and UST, add the word “measure”.

whenever anyone came to the grainery for twenty measures

of grain, there were only ten, and whenever someone came to the wine vat to draw out fifty measures of wine, there were only twenty. (Haggai 2:16 ULT)

Translation Strategies

1. Translate literally by using the number without a unit.
2. Use a generic word like “measure” or “quantity” or “amount”.
3. Use the name of an appropriate container, such as “basket” for grain or “jar” for wine.
4. Use a unit of measure that you are already using in your translation.

Translation Strategies Applied

The strategies are all applied to Haggai 2:16 below.

whenever anyone came to the grainery for twenty measures

of grain, there were only ten, and whenever someone came to the wine vat to draw out fifty measures of wine, there were only twenty. (Haggai 2:16 ULT)

(1) Translate literally by using the number without a unit.
whenever anyone came to the grainery for twenty of grain, there were only ten, and whenever someone came to the wine vat to draw out fifty of wine, there were only twenty.

(2) Use a generic word like “measure” or “quantity” or “amount”.
whenever anyone came to the grainery for twenty amounts of grain, there were only ten, and whenever someone came to the wine vat to draw out fifty amounts of wine, there were only twenty.

(3) Use the name of an appropriate container, such as “basket” for grain or “jar” for wine.
whenever anyone came to the grainery for twenty baskets of grain, there were only ten, and whenever someone came to the wine vat to draw out fifty jars of wine, there were only twenty.

(4) Use a unit of measure that you are already using in your translation.
whenever anyone came to the grainery for twenty liters of grain, there were only ten liters, and whenever someone came to the wine vat to draw out fifty liters of wine, there were only twenty liters.
Biblical Weight

Description

The following terms are the most common units of weight in the Bible. The term “shekel” means “weight”, and many other weights are described in terms of the shekel. Some of these weights were used for money. The metric values in the table below are not exactly equal to the biblical measures. The biblical measures differed in exact amount from time to time and place to place. The equivalents below are only an attempt to give an average measurement.

Translation Principles

1. The people in the Bible did not use modern measures such as meters, liters, and kilograms. Using the original measures can help readers know that the Bible really was written long ago in a time when people used those measures.
2. Using modern measures can help readers understand the text more easily.
3. Whatever measure you use, it would be good, if possible, to tell about the other kind of measure in the text or a footnote.
4. If you do not use the Biblical measures, try not to give the readers the idea that the measurements are exact. For example, if you translate one gerah as “.57 grams” readers might think that the measurement is exact. It would be better to say “half a gram”.
5. Sometimes it can be helpful to use the word “about” to show that a measurement is not exact. For example, 2 Samuel 21:16 says that Goliath’s spear weighed 300 shekels. Instead of translating this as “3300 grams” or “3.3 kilograms”, it can be translated as “about three and one half kilograms”.
6. When God tells people how much something should weigh, and when people use those weights, do not say “about” in the translation. Otherwise it will give the impression that God did not care exactly how much the thing should weigh.

Translation Strategies

1. Use the measurements from the ULT. These are the same kinds of measurements that the original writers used. Spell them in a way that is similar to the way they sound or are spelled in the ULT. (See Copy or Borrow Words.)
2. Use the metric measurements given in the UST. The translators of the UST have already figured how to represent the amounts in the metric system.

The strategies are all applied to Exodus 38:29 below.

The bronze from the offering weighed seventy talents and 2,400 shekels.

“The bronze from the offering weighed seventy talentes and 2,400 sekeles.”

(5) Use measurements that your people know, and include the measurements from the ULT in the text or in a footnote. The following shows the ULT measurements in notes.

Connecting Words and Phrases

Description

As humans, we write our thoughts in phrases and sentences. Usually, we want to communicate a series of thoughts that are connected to each other in different ways. Connecting Words and Phrases show how these thoughts are related to each other. For example, we can show how the following thoughts are related by using the underlined Connecting Words:

- It was raining, **so** I opened my umbrella.
- It was raining, **but** I did not have an umbrella. **So** I got very wet.

Connecting Words or Phrases can connect phrases or clauses within a sentence. They can connect sentences to each other. They can also connect entire chunks to one another in order to show how the chunk before relates to the chunk after. Very often, the Connecting Words that connect entire chunks to one another are either conjunctions or adverbs.

It was raining, but I did not have an umbrella. So I got very wet.

*Now* I must change my clothes. Then I will drink a cup of hot tea and warm myself by the fire.

In the above example, the word "now" connects the two short chunks of text, showing the relationship between them. The speaker must change his clothes, drink hot tea, and warm himself because of something that happened earlier (that is, he got wet in the rain).

Sometimes people might not use a Connecting Word because they expect the readers to understand the relationship between the thoughts because of the context. Some languages do not use Connecting Words as much as other languages do. They might say:

- It was raining. I did not have an umbrella. I got very wet.

You (the translator) will need to use the method that is most natural and clear in the target language. But in general, using Connecting Words whenever possible helps the reader to understand the ideas in the Bible most clearly.

Reasons this is a translation issue

- You need to understand the relationship between paragraphs, between sentences, and between parts of sentences in the Bible, and how Connecting Words and Phrases can help you to understand the relationship between the thoughts that it is connecting.
- Each language has its own ways of showing how thoughts are related.
- You need to know how to help readers understand the relationship between the thoughts in a way that is natural in your language.

Translation Principles

- You need to translate in a way that readers can understand the same relationship between thoughts that the original readers would have understood.
- Whether or not a Connecting Word is used is not as important as readers being able to understand the relationship between the ideas.

The Different Types of Connections

Listed below are different types of connections between ideas or events. These different types of connections can be indicated by using different Connecting Words. When we write or translate something, it is important to use the
right Connecting Word so that these connections are clear for the reader. If you would like additional information simply click the colored word to be directed to a page containing definitions and examples for each type of connection.

- **Sequential Clause** – a time relationship between two events in which one happens and then the other happens.
- **Simultaneous Clause** – a time relationship between two or more events that occur at the same time.
- **Background Clause** – a time relationship in which the first clause describes a long event that is happening at the time when the beginning of the second event happens, which is described in the second clause.
- **Exceptional Relationship** – one clause describes a group of people or items, and the other clause excludes one or more items or people from the group.
- **Hypothetical Condition** – the second event will only take place if the first one takes place. Sometimes what takes place is dependent on the actions of other people.
- **Factual Condition** – a connection that sounds hypothetical but is already certain or true so that the condition is guaranteed to happen.
- **Contrary to Fact Condition** – a connection that sounds hypothetical but is already certain that it is not true.
  
  See also: Hypothetical Statements.

- **Goal Relationship** – a logical relationship in which the second event is the purpose or goal of the first.
- **Reason and Result Relationship** – a logical relationship in which one event is the reason for the other event, which is the result.
- **Contrast Relationship** – one item is being described as different or in opposition to another.

### Examples from the Bible

I did not immediately consult with flesh and blood, nor did I go up to Jerusalem to those who had become apostles before me, **but** instead I went to Arabia and then returned to Damascus. **Then** after three years I went up to Jerusalem to visit Cephas, and I stayed with him fifteen days. (Galatians 1:16-18 ULT)

The word “but” introduces something that **contrasts** with what was said before. The **contrast** here is between what Paul did not do and what he did do. The word “then” introduces a **sequence** of events. It introduces something that Paul did after he returned to Damascus.

**Therefore** whoever breaks the least one of these commandments and teaches others to do so, will be called least in the kingdom of heaven. **But** whoever keeps them and teaches them will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

The word “Therefore” links this section with the section before it, signalling that the section that came before gave the **reason** for this section. “Therefore” usually links sections larger than one sentence. The word “and” links only two actions within the same sentence, that of breaking commandments and teaching others. In this verse the word “But” **contrasts** what one group of people will be called in God’s kingdom with what another group of people will be called.

We do not place a stumbling block in front of anyone, **for** we do not wish our ministry to be brought into disrepute. **Instead**, we prove ourselves by all our actions, that we are God’s servants. (2 Corinthians 6:3-4 ULT)

Here the word “for” connects what follows as the **reason** for what came before; the reason that Paul does not place stumbling blocks is that he does not want his ministry brought into disrepute. “Instead” **contrasts** what Paul does (proving by his actions that he is God’s servant) with what he said he does not do (placing stumbling blocks).
General Translation Strategies

See each type of Connecting Word above for specific strategies

If the way the relationship between thoughts is shown in the ULT would be natural and give the right meaning in your language, then consider using it. If not, here are some other options.

1. Use a connecting word (even if the ULT does not use one).
2. Do not use a connecting word if it would be strange to use one and people would understand the right relationship between the thoughts without it.
3. Use a different connecting word.

Examples of Translation Strategies Applied

(1) Use a connecting word (even if the ULT does not use one).

Jesus said to them, “Come after me, and I will make you become fishers of men.”
Immediately they left the nets and went after him. (Mark 1:17-18 ULT)

They followed Jesus because he told them to. Some translators may want to mark this clause with the connecting word “so”.

Jesus said to them, “Come after me, and I will make you become fishers of men.” So immediately they left the nets and went after him.

(2) Do not use a connecting word if it would be odd to use one and people would understand the right relationship between the thoughts without it.

Therefore whoever breaks the least one of these commandments and teaches others to do so, will be called least in the kingdom of heaven. But whoever keeps them and teaches them will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

Some languages would prefer not to use connecting words here, because the meaning is clear without them and using them would be unnatural. They might translate like this:

Therefore whoever breaks the least one of these commandments, teaching others to do so as well, will be called least in the kingdom of heaven. Whoever keeps them and teaches them will be called great in the kingdom of heaven.

I did not immediately consult with flesh and blood, nor did I go up to Jerusalem to those who had become apostles before me, but instead I went to Arabia and then returned to Damascus. Then after three years I went up to Jerusalem to visit Cephas, and I stayed with him fifteen days. (Galatians 1:16-18 ULT)

Some languages might not need the words “but” or “then” here. They might translate like this:

I did not immediately consult with flesh and blood, nor did I go up to Jerusalem to those who had become apostles before me. Instead I went to Arabia and then returned to Damascus. After three years I went up to Jerusalem to visit Cephas, and I stayed with him fifteen days.

(3) Use a different connecting word.

Therefore
whoever breaks the least one of these commandments and teaches others to do so, will be called least in the kingdom of heaven. But whoever keeps them and teaches them will be called great in the kingdom of heaven. (Matthew 5:19 ULT)

Instead of a word like “therefore,” a language might need a phrase to indicate that there was a section before it that gave the reason for the section that follows. Also, the word “but” is used here because of the contrast between the two groups of people. But in some languages, the word “but” would show that what comes after it is surprising because of what came before it. So “and” might be clearer for those languages. They might translate like this:

Because of that, whoever breaks the least one of these commandments and teaches others to do so, will be called least in the kingdom of heaven. And whoever keeps them and teaches them will be called great in the kingdom of heaven.

Distinguishing versus Informing or Reminding

Description

In some languages, phrases that modify a noun can be used with the noun for two different purposes. They can either (1) distinguish the noun from other similar items, or (2) they can give more information about the noun. That information could be new to the reader, or a reminder about something the reader might already know. Other languages use modifying phrases with a noun only for distinguishing the noun from other similar things. When people who speak these languages hear a modifying phrase with a noun, they assume that its function is to distinguish one item from another similar item.

Some languages use a comma to mark the difference between (1) making a distinction between similar items and (2) giving more information about an item. Without the comma, the sentence below communicates that it is making a distinction:

- Mary gave some of the food to her sister who was very thankful.
  - If her sister was usually thankful, the phrase “who was thankful” could distinguish this sister of Mary's from another sister who was not usually thankful.

With the comma, the sentence is giving more information:

- Mary gave some of the food to her sister, who was very thankful.
  - This same phrase can be used give us more information about Mary’s sister. It tells us about how Mary’s sister responded when Mary gave her the food. In this case it does not distinguish one sister from another sister.

Reasons this is a translation issue

- Many source languages of the Bible use phrases that modify a noun both for distinguishing the noun from another similar item and also for giving more information about the noun. You (the translator) must be careful to understand which meaning the author intended in each case.
- Some languages use phrases that modify a noun only for distinguishing the noun from another similar item. When translating a phrase that is used for giving more information, translators who speak these languages will need to separate the phrase from the noun. Otherwise, people who read it or hear it will think that the phrase is meant to distinguish the noun from other similar items.

Examples from the Bible

Examples of words and phrases that are used to distinguish one item from other possible items: These usually do not cause any problem in translation.

- ... The curtain is to separate the holy place from the most holy place. (Exodus 26:33 ULT)

The words “holy” and “most holy” distinguish two different places from each other and from any other place.

- A foolish son is a grief to his father, and bitterness to the woman who bore him. (Proverbs 17:25 ULT)

The phrase “who bore him” distinguishes which woman the son is bitterness to. He is not bitterness to all women, but to his mother.

Examples of words and phrases that are used to give added information or a reminder about an item: These are a translation issue for languages that do not use these.
...for your righteous judgments are good. (Psalm 119:39 Ult)

The word “righteous” simply reminds us that God's judgments are righteous. It does not distinguish his righteous
judgments from his unrighteous judgments, because all of his judgments are righteous.

Can Sarah, who is ninety years old, bear a son? (Genesis 17:17-18 Ult)

The phrase “who is ninety years old” is the reason that Abraham did not think that Sarah could bear a son. He was
not distinguishing one woman named Sarah from another woman named Sarah who was a different age, and he
was not telling anyone something new about her age. He simply did not think that a woman who was that old
could bear a child.

I will wipe away mankind whom I have created from the surface of the earth. (Genesis 6:7 Ult)

The phrase “whom I have created” is a reminder of the relationship between God and mankind. It is the reason
God had the right to wipe away mankind. There is not another mankind that God did not create.

Translation Strategies

If readers would understand the purpose of a phrase with a noun, then consider keeping the phrase and the noun
together. For languages that use words or phrases with a noun only to distinguish one item from another, here are
some strategies for translating phrases that are used to inform or remind.

1. Put the information in another part of the sentence and add words that show its purpose.
2. Use one of your language's ways for expressing that this is just added information. It may be by adding a
small word, or by changing the way the voice sounds. Sometimes changes in the voice can be shown with
punctuation marks, such as parentheses or commas.

Examples of Translation Strategies Applied

(1) Put the information in another part of the sentence and add words that show its purpose.

I hate those who serve worthless idols (Psalm 31:6 Ult) - By saying “worthless idols,” David was commenting about all idols and giving his reason for hating those who serve them. He was not distinguishing worthless idols from valuable idols.

Because idols are worthless, I hate those who serve them.

...for your righteous judgments are good. (Psalm 119:39 Ult)

...for your judgments are good because they are righteous.

Can Sarah, who is ninety years old, bear a son? (Genesis 17:17-18 Ult) - The phrase “who is ninety years old” is a reminder of Sarah's age. It tells why Abraham was asking the question. He did not expect that a woman who was that old could bear a child.

Can Sarah bear a son even when she is ninety years old?

I will call on Yahweh, who is worthy to be praised (2 Samuel 22:4 Ult) - There is only one Yahweh. The phrase “who is worthy to be praised” gives a reason for calling on Yahweh.

I will call on Yahweh, because he is worthy to be praised

(2) Use one of your language's ways for expressing that this is just added information.
You are my Son, whom I love.

I am pleased with you. (Luke 3:22 ULT)

You are my Son. I love you and I am pleased with you. Receiving my love, you are my Son. I am pleased with you.

(Go back to: 2 Chronicles 7:10; 7:22; 8:8; 9:8; 30:18; 30:22)
Double Negatives

A double negative occurs when a clause has two words that each express the meaning of “not.” Double negatives mean very different things in different languages. To translate sentences that have double negatives accurately and clearly, you need to know what a double negative means in the Bible and how to express this idea in your language.

Description

Negative words are words that have in them the meaning “not.” Examples in English are “no,” “not,” “none,” “no one,” “nothing,” “nowhere,” “never,” “nor,” “neither,” and “without.” Also, some words have prefixes or suffixes that mean “not” such as the underlined parts of these words: “un happy,” “im possible,” and “useless.” Some other kinds of words also have a negative meaning, such as “lack” or “reject,” or even “fight” or “evil.”

A double negative occurs when a clause has two words that each have a negative meaning.

It is not that we do not have authority... (2 Thessalonians 3:9 ULT)
And this better confidence did not happen without the taking of an oath,... (Hebrews 7:20 ULT.)
Be sure of this—wicked people will not go unpunished (Proverbs 11:21 ULT)

Reason this is a translation issue

Double negatives mean very different things in different languages.

- In some languages, such as Spanish, a double negative emphasizes the negative. The following Spanish sentence No vi a nadie is literally, “I did not see no one”. It has both the word ‘no’ next to the verb and ‘nadie,’ which means “no one”. The two negatives are seen as in agreement with each other, and the sentence means, “I did not see anyone”.
- In some languages, a second negative cancels the first one, creating a positive sentence. So, “He is not unintelligent” means “He is intelligent”.
- In some languages the double negative creates a positive sentence, but it is a weak statement. So, “He is not unintelligent” means, “He is somewhat intelligent”.
- In some languages, such as the languages of the Bible, the double negative can create a positive sentence, and often strengthens the statement. So, “He is not unintelligent” can mean “He is intelligent” or “He is very intelligent”.

To translate sentences with double negatives accurately and clearly in your language, you need to know both what a double negative means in the Bible and how to express the same idea in your language.

Examples from the Bible

...in order not to be unfruitful. (Titus 3:14 ULT)
This means “so that they will be fruitful”.

All things were made through him and without him there was not one thing made that has been made. (John 1:3 ULT)

By using a double negative, John emphasized that the Son of God created absolutely everything. The double negative makes a stronger statement than the simple positive.
Translation Strategies

If double negatives are natural and are used to express the positive in your language, consider using them. Otherwise, you could consider these strategies:

1. If the purpose of a double negative in the Bible is simply to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.
2. If the purpose of a double negative in the Bible is to make a strong positive statement, and if it would not do that in your language, remove the two negatives and put in a strengthening word or phrase such as “very” or “surely” or “absolutely.”

Examples of Translation Strategies Applied

(1) If the purpose of a double negative in the Bible is simply to make a positive statement, and if it would not do that in your language, remove the two negatives so that it is positive.

  For we do not have a high priest who cannot feel sympathy for our weaknesses. (Hebrews 4:15 ULT)

  “For we have a high priest who can feel sympathy for our weaknesses.”

  ...in order not to be unfruitful**. (Titus 3:14 ULT)

  “…so that they may be fruitful.”

(2) If the purpose of a double negative in the Bible is to make a strong positive statement, and if it would not do that in your language, remove the two negatives and put in a strengthening word or phrase such as “very” or “surely” or “absolutely.”

  Be sure of this—wicked people will not go un punished... (Proverbs 11:21 ULT)

  “Be sure of this—wicked people will certainly be punished...”

All things were made through him and without him there was not one thing made that has been made. (John 1:3 ULT)

  “All things were made through him. He made absolutely everything that has been made.”

Doublet

Description

We are using the word “doublet” to refer to two words or phrases that are used together and either mean the same thing or mean very close to the same thing. Often they are joined with the word “and.” Unlike Hendiadys, in which one of the words modifies the other, in a doublet the two words or phrases are equal and are used to emphasize or intensify the one idea that is expressed by the two words or phrases.

Reason this is a translation issue

In some languages people do not use doublets. Or they may use doublets, but only in certain situations, so a doublet might not make sense in their language in some verses. People might think that the verse is describing two ideas or actions, when it is only describing one. In this case, translators may need to find some other way to express the meaning expressed by the doublet.

Examples from the Bible

- King David was old and advanced in years. (1 Kings 1:1 ULT)
  The underlined words mean the same thing. Together they mean that he was “very old.”
- ...he attacked two men more righteous and better than himself... (1 Kings 2:32 ULT)
  This means that they were “much more righteous” than he was.
- You have decided to prepare false and deceptive words (Daniel 2:9 ULT)
  This means that they had decided to lie, which is another way of saying that they intended to deceive people.
- ...as of a lamb without blemish and without spot. (1 Peter 1:19 ULT)
  This means that he was like a lamb that did not have any defect—not even one.

Translation Strategies

If a doublet would be natural and give the right meaning in your language, consider using it. If not, consider these strategies.

1. Translate only one of the words or phrases.
2. If the doublet is used to intensify the meaning, translate one of the words or phrases and add a word that intensifies it such as “very” or “great” or “many.”
3. If the doublet is used to intensify or emphasize the meaning, use one of your language’s ways of doing that.

Translation Strategies Applied

(1) Translate only one of the words.
   - You have decided to prepare false and deceptive words (Daniel 2:9 ULT)
     “You have decided to prepare false things to say.”
(2) If the doublet is used to intensify the meaning, translate one of the words and add a word that intensifies it such as “very” or “great” or “many.”

| King David was old |
and advanced in years. (1 Kings 1:1 ULT) |
| “King David was very old.” |

(3) If the doublet is used to intensify or emphasize the meaning, use one of your language’s ways of doing that.

| ...a lamb without blemish |
and without spot... (1 Peter 1:19 ULT) - English can emphasize this with “any” and “at all.” |
| “...a lamb without any blemish at all...” |

Ellipsis

Description

Ellipsis is what happens when a speaker or writer leaves out one or more words from a sentence that it normally should have to be a complete sentence. The speaker or writer does this because he knows that the hearer or reader will understand the meaning of the sentence and supply the words in his mind when he hears or reads the words that are there. For example:

...the wicked will not stand in the judgment, nor sinners in the assembly of the righteous.
(Psalm 1:5)

There is ellipsis in the second part because “nor sinners in the assembly of the righteous” is not a complete sentence. The speaker assumes that the hearer will understand what it is that sinners will not do in the assembly of the righteous by filling in the action from the previous clause. With the action filled in, the complete sentence would be:

...nor will sinners stand in the assembly of the righteous.

There are two types of ellipsis.

1. A Relative Ellipsis happens when the reader has to supply the omitted word or words from the context. Usually the word is in the previous sentence, as in the example above.

2. An Absolute Ellipsis happens when the omitted word or words are not in the context, but the phrases are common enough in the language that the reader is expected to supply what is missing from this common usage, or from the nature of the situation.

Reason this is a translation issue

Readers who see incomplete sentences or phrases may not know that there is information missing that the writer expects them to fill in. Or readers may understand that there is information missing, but they may not know what information is missing because they do not know the original biblical language, culture, or situation as the original readers did. In this case, they may fill in the wrong information. Or readers may misunderstand the ellipsis if they do not use ellipsis in the same way in their language.

Examples from the Bible

Relative Ellipsis

He makes Lebanon skip like a calf and Sirion like a young ox. (Psalm 29:6 ULT)

The writer wants his words to be few and to make good poetry. The full sentence with the information filled in would be:

He makes Lebanon skip like a calf and he makes Sirion skip like a young ox.

But if we are afflicted, for your comfort and salvation; if we are comforted, for your comfort,...
(2 Corinthians 1:6)

The information that the reader must understand in the second parts of these sentences can be filled in from the first parts:
But if we are afflicted, we are afflicted for your comfort and salvation; if we are comforted, we are comforted for your comfort,…

**Absolute Ellipsis**

...when the blind man was near, Jesus asked him, “What do you want me to do for you?” He said, “Lord, that I might receive my sight.” (Luke 18:40-41 ULT)

It seems that the man answered in an incomplete sentence because he wanted to be polite and not directly ask Jesus for healing. He knew that Jesus would understand that the only way he could receive his sight would be for Jesus to heal him. The complete sentence would be:

“Lord, I want you to heal me so that I might receive my sight.”

To Titus... _Grace and peace from God the Father and Christ Jesus our Savior._ (Titus 1:4 ULT)

The writer assumes that the reader will recognize this common form of a blessing or wish, so he does not need to include the full sentence, which would be:

To Titus... _May you receive_ grace and peace from God the Father and Christ Jesus our savior.

**Translation Strategies**

If ellipsis would be natural and give the right meaning in your language, consider using it. If not, here is another option:

1. Add the missing words to the incomplete phrase or sentence.

**Examples of Translation Strategies Applied**

(1) Add the missing words to the incomplete phrase or sentence.

...the wicked will not stand in the judgment, nor sinners in the assembly of the righteous. (Psalm 1:5)

...the wicked will not stand in the judgment, and _sinners will not stand in the assembly_ of the righteous

...when the blind man was near, Jesus asked him, “What do you want me to do for you?” He said, “Lord, that I might receive my sight.” (Luke 18:40-41)

...when the blind man was near, Jesus asked him, “What do you want me to do for you?” He said, “Lord, _I want you to heal me_ that I might receive my sight.”

**He makes Lebanon skip like a calf** and Sirion like a young ox.

. (Psalm 29:6)

He makes Lebanon skip like a calf, and _he makes_ Sirion _skip_ like a young ox.

Euphemism

Description

A euphemism is a mild or polite way of referring to something that is unpleasant, embarrassing, or socially unacceptable, such as death or activities usually done in private.

Definition

…they found Saul and his sons fallen on Mount Gilboa. (1 Chronicles 10:8 ULT)

This means that Saul and his sons “were dead”. It is a euphemism because the important thing was not that Saul and his sons had fallen but that they were dead. Sometimes people do not like to speak directly about death because it is unpleasant.

Reason this is a translation issue

Different languages use different euphemisms. If the target language does not use the same euphemism as in the source language, readers may not understand what it means and they may think that the writer means only what the words literally say.

Examples from the Bible

…where there was a cave. Saul went inside to relieve himself…(1 Samuel 24:3 ULT)

The original hearers would have understood that Saul went into the cave to use it as a toilet, but the writer wanted to avoid offending or distracting them, so he did not say specifically what Saul did or what he left in the cave.

Mary said to the angel, “How will this happen, since I have not slept with any man?” (Luke 1:34 ULT)

In order to be polite, Mary uses a euphemism to say that she has never had sexual intercourse with a man.

Translation Strategies

If euphemism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

1. Use a euphemism from your own culture.
2. State the information plainly without a euphemism if it would not be offensive.

Examples of Translation Strategies Applied

(1) Use a euphemism from your own culture.

…where there was a cave. Saul went inside to relieve himself

(1 Samuel 24:3 ULT) - Some languages might use euphemisms like these:

“…where there was a cave. Saul went into the cave to dig a hole “
“…where there was a cave. Saul went into the cave to have some time alone “

Mary said to the angel, “How will this happen, since I have not slept with any man?” (Luke 1:34 ULT)
Mary said to the angel, “How will this happen, since *I do not know a man*?” - (This is the euphemism used in the original Greek)

(2) State the information plainly without a euphemism if it would not be offensive.

- **they found Saul and his sons** fallen on Mount Gilboa. (1 Chronicles 10:8 ULT)
- “they found Saul and his sons **dead** on Mount Gilboa.”

Exclamations

Description
Exclamations are words or sentences that show strong feeling such as surprise, joy, fear, or anger. In the ULT and UST, they usually have an exclamation mark (!) at the end. The mark shows that it is an exclamation. The situation and the meaning of what the people say helps us understand what feelings they were expressing. In the example below from Matthew 8, the speakers were terribly afraid. In the example from Matthew 9, the speakers were amazed, because something happened that they had never seen before.

Save us, Lord; we are about to die! (Matthew 8:25 ULT)
When the demon had been driven out, the mute man spoke. The crowds were astonished and said, “This has never been seen before in Israel!” (Matthew 9:33 ULT)

Reason this is a translation issue
Languages have different ways of showing that a sentence communicates strong emotion.

Examples from the Bible
Some exclamations have a word that shows feeling. The sentences below have “Oh” and “Ah”. The word “oh” here shows the speaker’s amazement.

Oh, the depth of the riches both of the wisdom and the knowledge of God! (Romans 11:33 ULT)
The word “Ah” below shows that Gideon was very frightened.

Gideon understood that this was the angel of Yahweh. Gideon said, “Ah, Lord Yahweh! For I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

Some exclamations start with a question word such as “how” or “why”, even though they are not questions. The sentence below shows that the speaker is amazed at how unsearchable God’s judgments are.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33 ULT)
Some exclamations in the Bible do not have a main verb. The exclamation below shows that the speaker is disgusted with the person he is speaking to.

You worthless person! (Matthew 5:22 ULT)

Translation Strategies
1. If an exclamation in your language needs a verb, add one. Often a good verb is “is” or “are”.
2. Use an exclamation word from your language that shows the strong feeling.
3. Translate the exclamation word with a sentence that shows the feeling.
4. Use a word that emphasizes the part of the sentence that brings about the strong feeling.
5. If the strong feeling is not clear in the target language, then tell how the person felt.

Examples of Translation Strategies Applied
(1) If an exclamation in your language needs a verb, add one. Often a good verb is “is” or “are”.

You worthless person! (Matthew 5:22 ULT)
Lord Yahweh! For I have seen the angel of Yahweh face to face! (Judges 6:22 ULT)

“Ah, Lord Yahweh! For I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33 ULT)

“His judgments are so unsearchable and his ways are far beyond discovering!”

(2) Use an exclamation word from your language that shows the strong feeling. The word “wow” below shows that they were astonished. The expression “Oh no” shows that something terrible or frightening has happened.

They were absolutely astonished, saying, “He has done everything well. He even makes the deaf to hear and the mute to speak.” (Mark 7:36 ULT)

“They were absolutely astonished, saying, ’Wow! He has done everything well. He even makes the deaf to hear and the mute to speak.’”

Ah, Lord Yahweh! For I have seen the angel of Yahweh face to face! (Judges 6:22 ULT)

“Oh no, Lord Yahweh! I have seen the angel of Yahweh face to face!”

(3) Translate the exclamation word with a sentence that shows the feeling.

Ah

, Lord Yahweh! For I have seen the angel of Yahweh face to face! (Judges 6:22 ULT)

Lord Yahweh, what will happen to me? For I have seen the angel of Yahweh face to face!”

Help, Lord Yahweh! For I have seen the angel of Yahweh face to face!

(4) Use a word that emphasizes the part of the sentence that brings about the strong feeling.

How unsearchable are his judgments, and his ways beyond discovering! (Romans 11:33 ULT)

“How unsearchable are his judgments, and his ways beyond discovering!”

(5) If the strong feeling is not clear in the target language, then tell how the person felt.

Gideon understood that this was the angel of Yahweh. Gideon said, “Ah

, Lord Yahweh! For I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

“Gideon understood that this was the angel of Yahweh. He was terrified and said, “Ah, Lord Yahweh! I have seen the angel of Yahweh face to face!” (Judges 6:22 ULT)

Exclusive and Inclusive ‘We’

Description

Some languages have more than one form of “we”: an inclusive form that means “I and you” and an exclusive form that means “I and someone else but not you”. The exclusive form excludes the person being spoken to. The inclusive form includes the person being spoken to and possibly others. This is also true for “us”, “our”, “ours”, and “ourselves”. Some languages have inclusive forms and exclusive forms for each of these. Translators whose language has separate exclusive and inclusive forms for these words will need to understand what the speaker meant so that they can decide which form to use.

See the pictures. The people on the right are the people that the speaker is talking to. The yellow highlight shows who the inclusive “we” and the exclusive “we” refer to.

Reason this is a translation issue

The Bible was first written in the Hebrew, Aramaic, and Greek languages. Like English, these languages do not have separate exclusive and inclusive forms for “we.” If your language has separate exclusive and inclusive forms of “we”, then you will need to understand what the speaker meant so that you can decide which form of “we” to use.

Examples from the Bible

They said, “We have no more than five loaves of bread and two fish, unless we went and bought food for all this crowd of people.” (Luke 9:13 ULT)

In the first clause, the disciples are telling Jesus how much food they have among them, so this “we” could be the inclusive form or the exclusive form. In the second clause, the disciples are talking about some of them going to buy food, so that “we” would be the exclusive form, since Jesus would not go to buy food.

we have seen, and bear witness, and declare to you the eternal life, which was with the Father, and was manifested to us (1 John 1:2 ULT)

John is telling people who have not seen Jesus what he and the other apostles have seen. So languages that have exclusive forms of “we” and “us” would use the exclusive forms in this verse.

...the shepherds said one to each other, “Let us now go to Bethlehem, and see this thing that has happened, which the Lord has made known to us.” (Luke 2:15 ULT)

The shepherds were speaking to one another. When they said “us”, they were including the people they were speaking to - one another.

Now it happened on one of those days that Jesus and his disciples entered into a boat, and he said to them, “Let us go over to the other side of the lake.” Then they set sail. (Luke 8:22 ULT)
When Jesus said “us”, he was referring to himself and to the disciples he was speaking to, so this would be the inclusive form.

(Go back to: 2 Chronicles 18:14)
First, Second or Third Person

Normally a speaker refers to himself as “I” and the person he is speaking to as “you”. Sometimes in the Bible a speaker refers to himself or to the person he is speaking to with terms other than “I” or “you”.

Description

- **First person** - This is how a speaker normally refers to himself. English uses the pronouns “I” and “we”. (Also: me, my, mine; us, our, ours)
- **Second person** - This is how a speaker normally refers to the person or people he is speaking to. English uses the pronoun “you”. (Also: your, yours)
- **Third person** - This is how a speaker refers to someone else. English uses the pronouns “he”, “she”, “it” and “they”. (Also: him, his, her, hers, its; them, their, theirs) Noun phrases like “the man” or “the woman” are also third person.

Reason this is a Translation Issue

Sometimes in the Bible a speaker uses the third person to refer to himself or to the people he is speaking to. Readers might think that the speaker was referring to someone else. They might not understand that he meant “I” or “you”.

Examples from the Bible

Sometimes people used the third person instead of “I” or “me” to refer to themselves.

But David said to Saul, “Your servant used to keep his father’s sheep.” (1 Samuel 17:34 ULT)

David referred to himself in the third person as “your servant” and “his”. He was calling himself Saul's servant in order to show his humility before Saul.

Then Yahweh answered Job out of a fierce storm and said, “...Do you have an arm like God’s? Can you thunder with a voice like him?” (Job 40:6, 9 ULT)

God referred to himself in the third person with the words “God’s” and “him”. He did this to emphasize that he is God, and he is powerful.

Sometimes people use the third person instead of “you” or “your” to refer to the person or people they are speaking to.

Abraham answered and said, “Look what I have done, taking it upon myself to speak to my Lord, even though I am only dust and ashes!” (Genesis 18:27 ULT)

Abraham was speaking to the Lord, and referred to the Lord as “My Lord” rather than as “you”. He did this to show his humility before God.

So also my heavenly Father will do to you, if each of you does not forgive his brother from your heart. (Matthew 18:35 ULT)

After saying “each of you,” Jesus used the third person “his” instead of “your”.

This page answers the question: What are first, second, and third person, and how do I translate when a third person form does not refer to the third person?

In order to understand this topic, it would be good to read:

Translation Strategies

If using the third person to mean “I” or “you” would be natural and give the right meaning in your language, consider using it. If not, here are some other options.

1. Use the third person phrase along with the pronoun “I” or “you”.
2. Simply use the first person (“I”) or second person (“you”) instead of the third person.

Examples of Translation Strategies Applied

(1) Use the third person phrase along with the pronoun “I” or “you”.

But David said to Saul, “Your servant used to keep his father’s sheep.” (1 Samuel 17:34)

But David said to Saul, “I, your servant, used to keep my father’s sheep.”

(2) Simply use the first person (“I”) or second person (“you”) instead of the third person.

Then Yahweh answered Job out of a fierce storm and said, “… Do you have an arm like God’s?

Can you thunder with a voice like him? (Job 40:6, 9 ULT)

Then Yahweh answered Job out of a fierce storm and said, “… Do you have an arm like mine?

Can you thunder with a voice like me?”

So also my heavenly Father will do to you, if each of you does not forgive his brother from your heart. (Matthew 18:35 ULT)

So also my heavenly Father will do to you, if each of you does not forgive your brother from your heart.
Generic Noun Phrases

Description

Generic noun phrases refer to people or things in general rather than to specific individuals or things. This happens frequently in proverbs, because proverbs tell about things that are true about people in general.

Can a man walk on hot coals without scorching his feet? So is the man who goes into his neighbor’s wife; the one who has relations with her will not go unpunished. (Proverbs 6:28 ULT)

The underlined phrases above do not refer to a specific man. They refer to any man who does these things.

Reason this is a translation issue

Different languages have different ways of showing that noun phrases refer to something in general. You (the translator) should refer to these general ideas in ways that are natural in your language.

Examples from the Bible

The one who does what is right is kept away from trouble and it comes upon the wicked instead. (Proverbs 11:8 ULT)

The underlined phrases above do not refer to a specific person but to anyone who does what is right or anyone who is wicked.

People curse the man who refuses to sell them grain. (Proverbs 11:26 ULT)

This does not refer to a particular man, but to any person who refuses to sell grain.

Yahweh gives favor to a good man, but he condemns a man who makes evil plans. (Proverbs 12:2 ULT)

The phrase “a good man” does not refer to a particular man, but to any person who is good. The phrase “a man who makes evil plans” does not refer to a particular man, but to any person who makes evil plans.

Translation Strategies

If your language can use the same wording as in the ULT to refer to people or things in general rather than to specific individuals or things, consider using the same wording. If not, here are some strategies you might use.

1. Use the word “the” in the noun phrase.
2. Use the word “a” in the noun phrase.
3. Use the word “any”, as in “any person” or “anyone.”
4. Use the plural form, as in “people.”
5. Use any other way that is natural in your language.

Examples of Translation Strategies Applied

(1) Use the word “the” in the noun phrase.

Yahweh gives favor to a good man

, but he condemns a man who makes evil plans. (Proverbs 12:2 ULT)
“Yahweh gives favor to the good man, but he condemns the man who makes evil plans.”
(Proverbs 12:2)

(2) Use the word “a” in the noun phrase.

People curse the man who refuses to sell them grain. (Proverbs 11:26 ULT)

“People curse a man who refuses to sell them grain”

(3) Use the word “any, as in “any person” or “anyone.”

People curse the man who refuses to sell them grain. (Proverbs 11:26 ULT)

“People curse any man who refuses to sell them grain.”

(4) Use the plural form, as in “people” (or in this sentence, “men”).

People curse the man who refuses to sell them grain. (Proverbs 11:26 ULT)

“People curse men who refuse to sell them grain”

(5) Use any other way that is natural in your language.

People curse the man who refuses to sell them grain. (Proverbs 11:26 ULT)

“People curse whoever refuses to sell them grain.”

(Go back to: 2 Chronicles 31:1)
Go and Come

Description

Different languages have different ways of determining whether to use the words “go” or “come” and whether to use the words “take” or “bring” when talking about motion. For example, when saying that they are approaching a person who has called them, English speakers say “I’m coming,” while Spanish speakers say “I’m going.” You will need to study the context in order to understand what is meant by the words “go” and “come” (and also “take” and “bring”), and then translate those words in a way that your readers will understand which direction people are moving in.

Reason this is a translation issue

Different languages have different ways of talking about motion. The biblical languages or your source language may use the words “go” and “come” or “take” and “bring” differently than your language uses them. If these words are not translated in the way that is natural in your language, your readers may be confused about which direction people are moving.

Examples from the Bible

Yahweh said to Noah, “Come, you and all your household, into the ark” (Genesis 7:1 ULT)

In some languages, this would lead people to think that Yahweh was in the ark.

But you will be free from my oath if you come to my relatives and they will not give her to you. Then you will be free from my oath. (Genesis 24:41 ULT)

Abraham was speaking to his servant. Abraham’s relatives lived far away from where he and his servant were standing and he wanted his servant to go to them, not come toward Abraham.

When you have come to the land that Yahweh your God gives you, and when you take possession of it and begin to live in it… (Deuteronomy 17:14 ULT)

Moses is speaking to the people in the wilderness. They had not yet gone into the land that God was giving them. In some languages, it would make more sense to say, “When you have gone into the land…”

Joseph and Mary brought him up to the temple in Jerusalem to present him to the Lord. (Luke 1:22 ULT)

In some languages, it might make more sense to say that Joseph and Mary took or carried Jesus to the temple.

Behold, there came a man named Jairus, and he was one of the leaders of the synagogue. Jairus fell down at Jesus’ feet and implored him to come to his house, (Luke 8:41 ULT)

The man was not at his house when he spoke to Jesus. He wanted Jesus to go with him to his house.

Some time after this, his wife Elizabeth became pregnant, but she did not go out in public for five months. (Luke 1:24 UST)

In some languages, it might make more sense to say that Elizabeth did not come out in public.

Translation Strategies

If the word used in the ULT would be natural and give the right meaning in your language, consider using it. If not, here are other strategies.

1. Use the word “go,” “come,” “take,” or “bring” that would be natural in your language.

Hebrew Months

Description

The Hebrew calendar used in the Bible has twelve months. Unlike the western calendar, its first month begins in the spring of the northern hemisphere. Sometimes a month is called by its name (Abib, Ziv, Sivan), and sometimes it is called by its order in the Hebrew calendar year (first month, second month, third month).

Reasons this is a translation issue

- Readers may be surprised to read of months that they have never heard of, and they may wonder how those months correspond to the months that they use.
- Readers may not realize that phrases such as "the first month" or "the second month" refer to the first or second month of the Hebrew calendar, not some other calendar.
- Readers may not know when the first month of the Hebrew calendar begins.
- The Bible may tell about something happening in a certain month, but readers will not be able to fully understand what is said about it if they do not know what season of the year that was.

List of Hebrew Months

This is a list of the Hebrew months with information about them that may be helpful in the translation.

**Abib** - (This month is called Nisan after the Babylonian exile.) This is the first month of the Hebrew calendar. It marks when God brought the people of Israel out of Egypt. It is at the beginning of the spring season when the late rains come and people begin to harvest their crops. It is during the last part of March and the first part of April on western calendars. The Passover celebration started on Abib 10, the Festival of Unleavened Bread was right after that, and the Festival of Harvest was a few weeks after that.

**Ziv** - This is the second month of the Hebrew calendar. This is during the harvest season. It is during the last part of April and the first part of May on western calendars.

**Sivan** - This is the third month of the Hebrew calendar. It is at the end of the harvest season and the beginning of the dry season. It is during the last part of May and the first part of June on western calendars. The Feast of Weeks is celebrated on Sivan 6.

**Tammuz** - This is the fourth month of the Hebrew calendar. It is during the dry season. It is during the last part of June and the first part of July on western calendars.

**Ab** - This is the fifth month of the Hebrew calendar. It is during the dry season. It is during the last part of July and the first part of August on western calendars.

**Elul** - This is the sixth month of the Hebrew calendar. It is at the end of the dry season and the beginning of the rainy season. It is during the last part of August and the first part of September on western calendars.

**Ethanim** - This is the seventh month of the Hebrew calendar. This is during the early rain season which would soften the land for sowing. It is during the last part of September and the first part of October on western calendars. The Feast of Ingathering and the Day of Atonement are celebrated in this month.

**Bul** - This is the eighth month of the Hebrew calendar. It is during the rainy season when people plough their fields and sow seed. It is during the last part of October and the first part of November on western calendars.

**Kislev** - This is the ninth month of the Hebrew calendar. This is at the end of the sowing season and the beginning of the cold season. It is during the last part of November and the first part of December on western calendars.
Tebeth - This is the tenth month of the Hebrew calendar. It is during the cold season when there may be rain and snow. It is during the last part of December and the first part of January on western calendars.

Shebat - This is the eleventh month of the Hebrew calendar. This is the coldest month of the year, and it has heavy rain fall. It is during the last part of January and the first part of February on western calendars.

Adar - This is the twelfth and last month of the Hebrew calendar. This is during the cold season. It is during the last part of February and the first part of March on western calendars. The feast called Purim is celebrated in Adar.

Examples from the Bible

You are going out of Egypt on this day, in the month of Abib. (Exodus 13:4 ULT)

You must eat unleavened bread from twilight of the fourteenth day in the first month of the year, until twilight of the twenty-first day of the month. (Exodus 12:18 ULT)

Translation Strategies

You may need to make some information about the months explicit. (See Assumed Knowledge and Implicit Information.)

1. Tell the number of the Hebrew month.
2. Use the months that people know.
3. State clearly what season the month occurred in.
4. Refer to the time in terms of the season rather than in terms of the month. (If possible, use a footnote to show the Hebrew month and day.)

Examples of Translation Strategies Applied

The examples below use these two verses.

At that time, you will appear before me in the month of Abib, which is fixed for this purpose. It was in this month that you came out from Egypt. (Exodus 23:15 ULT)

It will always be a statute for you that in the seventh month, on the tenth day of the month, you must humble yourselves and do no work. (Leviticus 16:29 ULT)

(1) Tell the number of the Hebrew month.

At that time, you will appear before me in the first month of the year, which is fixed for this purpose. It was in this month that you came out from Egypt.

(2) Use the months that people know.

At that time, you will appear before me in the month of March, which is fixed for this purpose. It was in this month that you came out from Egypt.

It will always be a statute for you that on the day I choose in late September you must humble yourselves and do no work.”

(3) State clearly what season the month occurred in.

It will always be a statute for you that in the autumn, on the tenth day of the seventh month, you must humble yourselves and do no work.

(4) Refer to the time in terms of the season rather than in terms of the month.
It will always be a statute for you that in the day I choose in early autumn you must humble yourselves and do no work.

The footnote would look like:

[1] The Hebrew says, “the seventh month, on the tenth day of the month.”

Hendiadys

Description

When a speaker expresses a single idea by using two words that are connected with “and,” it is called “hendiadys.” In hendiadys, the two words work together. Usually one of the words is the primary idea and the other word further describes the primary one.

...his own kingdom and glory. (1 Thessalonians 2:12 ULT)

Though “kingdom” and “glory” are both nouns, “glory” actually tells what kind of kingdom it is: it is a kingdom of glory or a glorious kingdom.

Two phrases connected by “and” can also be a hendiadys when they refer to a single person, thing, or event.

while we look forward to receiving the blessed hope and appearing of the glory of our great God and Savior Jesus Christ. (Titus 2:13 ULT)

Titus 2:13 contains two hendiadys. “The blessed hope” and “appearing of the glory” refer to the same thing and serve to strengthen the idea that the return of Jesus Christ is greatly anticipated and wonderful. Also, “our great God” and “Savior Jesus Christ” refer to one person, not two.

Reasons this is a translation issue

• Often hendiadys contains an abstract noun. Some languages may not have a noun with the same meaning.
• Many languages do not use hendiadys, so people may not understand that the second word is further describing the first one.
• Many languages do not use hendiadys, so people may not understand that only one person or thing is meant, not two.

Examples from the Bible

...for I will give you words and wisdom... (Luke 21:15 ULT)

“Words” and “wisdom” are nouns, but in this figure of speech “wisdom” describes “words.”

...if you are willing and obedient... (Isaiah 1:19 ULT)

“Willing” and “obedient” are adjectives, but “willing” describes “obedient.”

Translation Strategies

If the hendiadys would be natural and give the right meaning in your language, consider using it. If not, here are other options:

1. Substitute the describing noun with an adjective that means the same thing.
2. Substitute the describing noun with a phrase that means the same thing.
3. Substitute the describing adjective with an adverb that means the same thing.
4. Substitute other parts of speech that mean the same thing and show that one word or phrase describes the other.
5. If it is unclear that only one thing is meant, change the phrase so that this is clear.
Examples of Translation Strategies Applied

(1) Substitute the describing noun with an adjective that means the same thing.

for I will give you words and wisdom 

(Luke 21:15 ULT)

for I will give you wise words

that you should walk in a manner that is worthy of God, who calls you to his own kingdom and glory 

(1 Thessalonians 2:12 ULT)

that you should walk in a manner that is worthy of God, who calls you to his own glorious kingdom.

(2) Substitute the describing noun with a phrase that means the same thing.

for I will give you words of wisdom

(Luke 21:15 ULT)

for I will give you words of wisdom.

that you should walk in a manner that is worthy of God, who calls you to his own kingdom and glory 

(1 Thessalonians 2:12 ULT)

that you should walk in a manner that is worthy of God, who calls you to his own kingdom of glory.

(3) Substitute the describing adjective with an adverb that means the same thing.

if you are willing and obedient (Isaiah 1:19 ULT)

if you willingly obedient

(4) Substitute other parts of speech that mean the same thing and show that one word or phrase describes the other.

if you are willing and obedient

(Isaiah 1:19 ULT)

The adjective "obedient" can be substituted with the verb "obey."

if you obey willingly

(4) and (5) If it is unclear that only one thing is meant, change the phrase so that this is clear.

while we look forward to receiving the blessed hope and appearing of the glory of our great God and Savior Jesus Christ. (Titus 2:13 ULT)

The noun "glory" can be changed to the adjective "glorious" to make it clear that Jesus' appearing is what we hope for. Also, "Jesus Christ" can be moved to the front of the phrase and "great God and Savior" put into a relative clause that describes the one person, Jesus Christ.
while we look forward to receiving what we are longing for, the blessed and glorious appearing of Jesus Christ, who is our great God and Savior.

How to Translate Names

Description

The Bible has names of many people, groups of people, and places. Some of these names may sound strange and be hard to say. Sometimes readers may not know what a name refers to, and sometimes they may need to understand what a name means. This page will help you see how you can translate these names and how you can help people understand what they need to know about them.

Meaning of names

Most names in the Bible have meaning. Most of the time, names in the Bible are used simply to identify the people and places they refer to. But sometimes the meaning of a name is especially important.

It was this Melchizedek, king of Salem, priest of God Most High, who met Abraham returning from the slaughter of the kings and blessed him. (Hebrews 7:1 ULT)

Here the writer uses the name “Melchizedek” primarily to refer to a man who had that name, and the title “king of Salem” tells us that he ruled over a certain city.

His name “Melchizedek” means “king of righteousness,” and also “king of Salem,” that is, “king of peace.” (Hebrews 7:2 ULT)

Here the writer explains the meanings of Melchizedek’s name and title, because those things tell us more about the person. Other times, the writer does not explain the meaning of a name because he expects the reader to already know the meaning. If the meaning of the name is important to understand the passage, you can include the meaning in the text or in a footnote.

Reasons this is a translation issue

• Readers may not know some of the names in the Bible. They may not know whether a name refers to a person or place or something else.
• Readers may need to understand the meaning of a name in order to understand the passage.
• Some names may have different sounds or combinations of sounds that are not used in your language or are unpleasant to say in your language. For strategies to address this problem, see Borrow Words.
• Some people and places in the Bible have two names. Readers may not realize that two names refer to the same person or place.

Examples from the Bible

You went over the Jordan and came to Jericho. The leaders of Jericho fought against you, along with the Amorites (Joshua 24:11 ULT)

Readers might not know that “Jordan” is the name of a river, “Jericho” is the name of a city, and “Amorites” is the name of a group of people.

she said, “Do I really continue to see, even after he has seen me?” Therefore the well was called Beerlahairoi; (Genesis 16:13-14 ULT)

Readers may not understand the second sentence if they do not know that “Beerlahairoi” means “Well of the Living One who sees me”.

She named him Moses and said, “Because I drew him from the water.” (Exodus 2:11 ULT)
Readers may not understand why she said this if they do not know that the name Moses sounds like the Hebrew words “pull out”.

\[ \text{Saul was in agreement with his death (Acts 8:1 ULT)} \]

It came about in Iconium that Paul and Barnabas entered together into the synagogue (Acts 14:1 ULT)

Readers may not know that the names Saul and Paul refer to the same person.

**Translation Strategies**

1. If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.
2. If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.
3. Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.
4. If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently.
5. Or if a person or place has two different names, then use whatever name is given in the source text, and add a footnote that gives the other name.

**Examples of Translation Strategies Applied**

(1) If readers cannot easily understand from the context what kind of a thing a name refers to, you can add a word to clarify it.

You went over the Jordan and came to Jericho. The leaders of Jericho fought against you, along with the Amorites (Joshua 24:11 ULT)

You went over the Jordan River and came to the city of Jericho. The leaders of Jericho fought against you, along with the tribe of the Amorites

Shortly after, some Pharisees came and said to him, “Go and leave here because Herod wants to kill you.” (Luke 13:31 ULT)

Shortly after, some Pharisees came and said to him, “Go and leave here because King Herod wants to kill you.

(2) If readers need to understand the meaning of a name in order to understand what is said about it, copy the name and tell about its meaning either in the text or in a footnote.

She named him Moses and said, “Because I drew him from the water.” (Exodus 2:11 ULT)

She named him Moses (which sounds like ‘drawn out’), and said, “Because I drew him from the water.”

(3) Or if readers need to understand the meaning of a name in order to understand what is said about it, and that name is used only once, translate the meaning of the name instead of copying the name.

...she said, “Do I really continue to see, even after he has seen me?” Therefore the well was called Beerlahairoi
...she said, “Do I really continue to see, even after he has seen me?” Therefore the well was called **Well of the Living One who sees me**;

(4) If a person or place has two different names, use one name most of the time and the other name only when the text tells about the person or place having more than one name or when it says something about why the person or place was given that name. Write a footnote when the source text uses the name that is used less frequently. For example, Paul is called “Saul” before Acts 13 and “Paul” after Acts 13. You could translate his name as “Paul” all of the time, except in Acts 13:9 where it talks about him having both names.

...a young man named Saul

(Acts 7:58 ULT)

...a young man named Paul \(^1\)

The footnote would look like:

\[1\] Most versions say Saul here, but most of the time in the Bible he is called Paul.

Then later in the story, you could translate this way:

But Saul

, who is also called Paul, was filled with the Holy Spirit; (Acts 13:9)

But Saul, who is also called Paul, was filled with the Holy Spirit;

(5) Or if a person or place has two names, use whatever name is given in the source text, and add a footnote that gives the other name. For example, you could write “Saul” where the source text has “Saul” and “Paul” where the source text has “Paul.”

a young man named Saul

(Acts 7:58 ULT)

a young man named Saul

The footnote would look like:

\[1\] This is the same man who is called Paul beginning in Acts 13.

Then later in the story, you could translate this way:

But Saul

, who is also called Paul, was filled with the Holy Spirit; (Acts 13:9)

But Saul, who is also called Paul, was filled with the Holy Spirit;

Then after the story has explained the name change, you could translate this way.

It came about in Iconium that Paul

and Barnabas entered together into the synagogue (Acts 14:1 ULT)

It came about in Iconium that Paul \(^1\) and Barnabas entered together into the synagogue

The footnote would look like:
This is the same man who was called Saul before Acts 13.

Hyperbole

Description

A speaker or writer can use exactly the same words to say something that he means as completely true, or as generally true, or as a hyperbole. This is why it can be hard to decide how to understand a statement. For example, the sentence below could mean three different things.

- It rains here every night.
  1. The speaker means this as literally true if he means that it really does rain here every night.
  2. The speaker means this as a generalization if he means that it rains here most nights.
  3. The speaker means this as a hyperbole if he wants to say that it rains more than it actually does, usually in order to express a strong attitude toward the amount of rain, such as being annoyed or being happy about it.

Hyperbole: This is a figure of speech that uses exaggeration. A speaker deliberately describes something by an extreme or even unreal statement, usually to show his strong feeling or opinion about it. He expects people to understand that he is exaggerating.

- They will not leave one stone upon another (Luke 19:44 ULT)
- This is an exaggeration. It means that the enemies will completely destroy Jerusalem.
- Moses was educated in all the learning of the Egyptians (Acts 7:22 ULT)
- This hyperbole means that he had learned much of what the Egyptians knew and taught, and thus was as educated as any Egyptian.

Generalization: This is a statement that is true most of the time or in most situations that it could apply to.

- The one who ignores instruction will have poverty and shame, but honor will come to him who learns from correction. (Proverbs 13:18)
- These generalizations tell about what normally happens to people who ignore instruction and what normally happens to people who learn from correction. There may be some exceptions to these statements, but they are generally true.
- And when you pray, do not make useless repetitions as the Gentiles do, for they think that they will be heard because of their many words. (Matthew 6:7)
- This generalization tells about what Gentiles were known for doing. Many Gentiles did this. It does not matter if a few did not. The point was that the hearers should not join in this well-known practice.

Even though a hyperbole or a generalization may have a strong-sounding word like “all,” “always,” “none,” or “never,” it does not necessarily mean exactly “all,” “always,” “none,” or “never.” It simply means “most,” “most of the time,” “hardly any,” or “rarely.”

Reason this is a translation issue

1. Readers need to be able to understand whether or not a statement is literally true.
2. If readers realize that a statement is not literally true, they need to be able to understand whether it is a hyperbole, a generalization, or a lie. (Though the Bible is completely true, it tells about people who did not always tell the truth.)
Examples of Hyperbole

If your hand causes you to stumble, cut it off. It is better for you to enter into life maimed... (Mark 9:43 ULT)

When Jesus said to cut off your hand, he meant that we should do whatever extreme things we need to do in order not to sin. He used this hyperbole to show how extremely important it is to try to stop sinning.

The Philistines gathered together to fight against Israel: thirty thousand chariots, six thousand men to drive the chariots, and troops as numerous as the sand on the seashore. (1 Samuel 13:5 ULT)

The underlined phrase is an exaggeration for the purpose of expression the emotion that the Philistine army was overwhelming in number. It means that there were many, many soldiers in the Philistine army.

But as his anointing teaches you about all things and is true and is not a lie, and even as it has taught you, remain in him. (1 John 2:27 ULT)

This is a hyperbole. It expresses the assurance that God's Spirit teaches us about all things that we need to know. God's Spirit does not teach us about everything that it is possible to know.

They found him, and they said to him, “Everyone is looking for you.” (Mark 1:37 ULT)

The disciples probably did not mean that everyone in the city was looking for Jesus, but that many people were looking for him, or that all of Jesus' closest friends there were looking for him. This is an exaggeration for the purpose of expressing the emotion that they and many others were worried about him.

Examples of Generalization

Can anything good come out of Nazareth? (John 1:46 ULT)

This rhetorical question is meant to express the generalization that there is nothing good in Nazareth. The people there had a reputation for being uneducated and not strictly religious. Of course, there were exceptions.

One of them, of their own prophets, has said, “Cretans are always liars, evil beasts, lazy bellies.” (Titus 1:12 ULT)

This is a generalization that means that Cretans had a reputation to be like this because, in general, this is how Cretans behaved. It is possible that there were exceptions.

A lazy hand causes poverty, but the hand of the diligent makes him rich. (Proverbs 10:4 ULT)

This is generally true, and reflects the experience of most people. It is possible that there are exceptions in some circumstances.

Caution

Do not assume that something is an exaggeration just because it seems to be impossible. God does miraculous things.

...they saw Jesus walking on the sea and coming near the boat... (John 6:19 ULT)

This is not hyperbole. Jesus really walked on the water. It is a literal statement.

Do not assume that the word “all” is always a generalization that means “most.”
Yahweh is always righteous. This is a completely true statement.

**Translation Strategies**

If the hyperbole or generalization would be natural and people would understand it and not think that it is a lie, consider using it. If not, here are other options.

1. Express the meaning without the exaggeration.
2. For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”
3. For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.
4. For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

**Examples of Translation Strategies Applied**

1. Express the meaning without the exaggeration.

   The Philistines gathered together to fight against Israel: thirty thousand chariots, six thousand men to drive the chariots, and troops as numerous as the sand on the seashore.
   
   (1 Samuel 13:5 ULT)

   The Philistines gathered together to fight against Israel: thirty thousand chariots, six thousand men to drive the chariots, and a great number of troops.

2. For a generalization, show that it is a generalization by using a phrase like “in general” or “in most cases.”

   The one who ignores instruction will have poverty and shame...
   
   In general, the one who ignores instruction will have poverty and shame.

   And when you pray, do not make useless repetitions as the Gentiles do, for they think that they will be heard because of their many words.
   
   “And when you pray, do not make useless repetitions as the Gentiles generally do, for they think that they will be heard because of their many words.”

3. For a hyperbole or a generalization, add a word like “many” or “almost” to show that the hyperbole or generalization is not meant to be exact.

   The whole country of Judea and all the people of Jerusalem went out to him.
   
   Almost all the country of Judea and almost all the people of Jerusalem went out to him.

   or:

   Many of the country of Judea and many of the people of Jerusalem went out to him.

4. For a hyperbole or a generalization that has a word like “all,” “always,” “none,” or “never,” consider deleting that word.

   The whole country of Judea and all the people of Jerusalem went out to him.
The country of Judea and the people of Jerusalem went out to him.

Hypothetical Situations

Consider these phrases: “If the sun stopped shining...”; “What if the sun stopped shining...;” “Suppose the sun stopped shining...;” and “If only the sun had not stopped shining.” We use such expressions to set up hypothetical situations, imagining what might have happened or what could happen in the future but probably will not. We also use them to express regret or wishes. These occur often in the Bible. You (the translator) need to translate them in a way that people will know that the event did not actually happen, and that they will understand why the event was imagined.

Description

Hypothetical situations are situations that are not real. They can be in the past, present, or future. Hypothetical situations in the past and present have not happened, and ones in the future are not expected to happen.

People sometimes tell about conditions and what would happen if those conditions were met, but they know that these things have not happened or probably will not happen. (The conditions are the phrase that start with “if.”)

- If he had lived to be one hundred years old, he would have seen his grandson's grandson. (But he did not.)
- If he lived to be one hundred years old, he would still be alive today. (But he is not.)
- If he lives to be one hundred years old, he will see his grandson's grandson. (But he probably will not.)

People sometimes express wishes about things that have not happened or that are not expected to happen.

- I wish he had come.
- I wish he were here.
- I wish he would come.

People sometimes express regrets about things that have not happened or that are not expected to happen.

- If only he had come.
- If only he were here.
- If only he would come.

Reason this Is a Translation Issue

- Translators need to recognize the different kinds of hypothetical situations in the Bible and understand that they are unreal.
- Translators need to know their own language's ways of talking about different kinds of hypothetical situations.

Examples from the Bible

Hypothetical situations in the past

“Woe to you, Chorazin! Woe to you, Bethsaida! If the mighty deeds had been done in Tyre and Sidon which were done in you, they would have repented long ago in sackcloth and ashes.” (Matthew 11:21 ULT)

Here in Matthew 11:21 Jesus said that if the people living in the ancient cities of Tyre and Sidon had been able to see the miracles that he performed, they would have repented long ago. The people of Tyre and Sidon did not actually see his miracles and they did not repent. He said this to rebuke the people of Chorazin and Bethsaida who had seen his miracles and yet did not repent.
Martha said this to express her wish that Jesus had come sooner, so that her brother would not have died. But Jesus did not come sooner, and her brother did die.

Hypothetical situations in the present

Also, no man puts new wine into old wineskins. If he did that, the new wine would burst the skins, and the wine would be spilled, and the wineskins would be destroyed. (Luke 5:37 ULT)

Jesus told about what would happen if a person were to put new wine into old wineskins. But no one would do that. He used this imaginary situation as an example to show that there are times when it is unwise to mix new things with old things. He did this so that people could understand why his disciples were not fasting as people traditionally did.

Jesus said to them, “What man would there be among you, who, if he had just one sheep, and if this sheep fell into a deep hole on the Sabbath, would not grasp hold of it and lift it out? (Matthew 12:11 ULT)

Jesus asked the religious leaders what they would do on the Sabbath if one of their sheep fell into a hole. He was not saying that their sheep would fall into a hole. He used this imaginary situation to show them that they were wrong to judge him for healing people on the Sabbath.

Hypothetical situation in the future

Unless those days are shortened, no flesh would be saved; but for the sake of the elect, those days will be shortened. (Matthew 24:22 ULT)

Jesus was talking about a future time when very bad things would happen. He told what would happen if those days of trouble were to last a long time. He did this to show about how bad those days will be—so bad that if they lasted a long time, no one would be saved. But then he clarified that God will shorten those days of trouble, so that the elect (those he has chosen) will be saved.

Expressing emotion about a hypothetical situation

People sometimes talk about hypothetical situations in order to express regrets and wishes. Regrets are about the past and wishes are about the present and future.

The Israelites said to them, “If only we had died by Yahweh’s hand in the land of Egypt when we were sitting by the pots of meat and were eating bread to the full. For you have brought us out into this wilderness to kill our whole community with hunger.” (Exodus 16:3 ULT)

Here the Israelites were afraid that they would have to suffer and die of hunger in the wilderness, and so they wished that they had stayed in Egypt and died there with full stomachs. They were complaining, expressing regret that this had not happened.

I know what you have done, and that you are neither cold nor hot. I wish that you were either cold or hot! (Revelation 3:15 ULT)

Jesus wished that the people were either hot or cold, but they are neither. He was rebuking them, expressing anger at this.

Translation Strategies

Find out how people speaking your language show:

• that something could have happened, but did not.
• that something could be true now, but is not.
• that something could happen in the future, but will not unless something changes.
• that they wish for something, but it does not happen.
• that they regret that something did not happen.

Use your language’s ways of showing these kinds of things.

Idiom

An idiom is a figure of speech made up of a group of words that, as a whole, has a meaning that is different from what one would understand from the meanings of the individual words. Someone from outside of the culture usually cannot understand an idiom without someone inside the culture explaining its true meaning. Every language uses idioms. Some English examples are:

- You are pulling my leg. (This means, “You are telling me a lie.”)
- Do not push the envelope. (This means, “Do not take a matter to its extreme.”)
- This house is under water. (This means, “The debt owed for this house is greater than its actual value.”)
- We are painting the town red. (This means, “We are going around town tonight celebrating very intensely.”)

**Description**

An idiom is a phrase that has a special meaning to the people of the language or culture who use it. Its meaning is different than what a person would understand from the meanings of the individual words that form the phrase.

**Purpose**

An idiom is created in a culture probably somewhat by accident when someone describes something in an unusual way. But, when that unusual way communicates the message powerfully and people understand it clearly, other people start to use it. After a while, it becomes a normal way of talking in that language.

**Reasons this is a translation issue**

- People can easily misunderstand idioms in the original languages of the Bible if they do not know the cultures that produced the Bible.
- People can easily misunderstand idioms that are in the source language Bibles if they do not know the cultures that made those translations.
- It is useless to translate idioms literally (according to the meaning of each word) when the target language audience will not understand what they mean.

**Examples from the Bible**

Then all Israel came to David at Hebron and said, “Look, we are your flesh and bone.” (1 Chronicles 11:1 ULT)

This means, “We and you belong to the same race, the same family.”

the children of Israel went out with a high hand. (Exodus 14:8 ASV)
This means, “The Israelites went out defiantly.”

the one who lifts up my head (Psalm 3:3 ULT)

This means, “the one who helps me.”

Translation Strategies

If the idiom would be clearly understood in your language, consider using it. If not, here are some other options.

1. Translate the meaning plainly without using an idiom.
2. Use a different idiom that people use in your own language that has the same meaning.

Examples of Translation Strategies Applied

(1) Translate the meaning plainly without using an idiom.

Then all Israel came to David at Hebron and said, “Look, we are your flesh and bone.” (1 Chronicles 11:1 ULT)

he resolutely set his face
to go to Jerusalem. (Luke 9:51 ULT)

He started to travel to Jerusalem, determined to reach it.

I am not worthy that you should enter under my roof
.(Luke 7:6 ULT)

I am not worthy that you should enter my house.

(2) Use an idiom that people use in your own language that has the same meaning.

Let these words go deeply into your ears
(Luke 9:44 ULT)

Be all ears when I say these words to you.

“My eyes grow dim
from grief (Psalm 6:7 ULT)

I am crying my eyes out

Irony

Description

Irony is a figure of speech in which the sense that the speaker intends to communicate is actually the opposite of the literal meaning of the words. Sometimes a person does this by using someone else’s words, but in a way that communicates that he does not agree with them. People do this to emphasize how different something is from what it should be, or how someone else’s belief about something is wrong or foolish. It is often humorous.

Jesus answered them, “People who are in good health do not need a physician, only people who are sick need one. I did not come to call righteous people to repentance, but to call sinners to repentance.” (Luke 5:31-32 ULT)

When Jesus spoke of “righteous people,” he was not referring to people who were truly righteous, but to people who wrongly believed that they were righteous. By using irony, Jesus communicated that they were wrong to think that they were better than others and did not need to repent.

Reason this is a translation issue

If someone does not realize that a speaker is using irony, he will think that the speaker actually believes what he is saying. He will understand the passage to mean the opposite of what it was intended to mean.

Examples from the Bible

How well you reject the commandment of God so you may keep your tradition! (Mark 7:9 ULT)

Here Jesus praises the Pharisees for doing something that is obviously wrong. Through irony, he communicates the opposite of praise: He communicates that the Pharisees, who take great pride in keeping the commandments, are so far from God that they do not even recognize that their traditions are breaking God’s commandments. The use of irony makes the Pharisee’s sin more obvious and startling.

“Present your case,” says Yahweh; “present your best arguments for your idols,” says the King of Jacob. “Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled.” (Isaiah 41:21-22 ULT)

People worshiped idols as if their idols had knowledge or power, and Yahweh was angry at them for doing that. So he used irony and challenged their idols to tell what would happen in the future. He knew that the idols could not do this, but by speaking as if they could, he mocked the idols, making their inability more obvious, and rebuked the people for worshiping them.

Can you lead light and darkness to their places of work?
Can you find the way back to their houses for them?
Undoubtedly you know, for you were born then; “the number of your days is so large!” (Job 38:20, 21 ULT)

Job thought that he was wise. Yahweh used irony to show Job that he was not so wise. The two underlined phrases above are irony. They emphasize the opposite of what they say, because they are so obviously false. They emphasize that Job could not possibly answer God’s questions about the creation of light because Job was not born until many, many years later.
Already you have all you could want! Already you have become rich! You began to reign—and that quite apart from us! (1 Corinthians 4:8 ULT)

The Corinthians considered themselves to be very wise, self-sufficient, and not in need of any instruction from the Apostle Paul. Paul used irony, speaking as if he agreed with them, to show how proudly they were acting and how far from being wise they really were.

Translation Strategies

If the irony would be understood correctly in your language, translate it as it is stated. If not, here are some other strategies.

1. Translate it in a way that shows that the speaker is saying what someone else believes.
2. Translate the actual, intended meaning of the statement of irony. The actual meaning of the irony is not found in the literal words of the speaker, but instead the true meaning is found in the opposite of the literal meaning of the speaker's words.

Examples of Translation Strategies Applied

(1) Translate it in a way that shows that the speaker is saying what someone else believes.

How well you reject the commandment of God so you may keep your tradition! (Mark 7:9 ULT)

You think that you are doing well when you reject God's commandment so you may keep your tradition!

You act like it is good to reject God's commandment so you may keep your tradition!

I did not come to call righteous people to repentance, but to call sinners to repentance. (Luke 5:32 ULT)

I did not come to call people who think that they are righteous to repentance, but to call sinners to repentance.

(2) Translate the actual, intended meaning of the statement of irony.

How well you reject the commandment of God so you may keep your tradition! (Mark 7:9 ULT)

You are doing a terrible thing when you reject the commandment of God so you may keep your tradition!

"Present your case," says Yahweh; "present your best arguments for your idols," says the King of Jacob. “Let them bring us their own arguments; have them come forward and declare to us what will happen, so we may know these things well. Have them tell us of earlier predictive declarations, so we can reflect on them and know how they were fulfilled.” (Isaiah 41:21-22 ULT)

‘Present your case,’ says Yahweh; ‘present your best arguments for your idols,’ says the King of Jacob. Your idols cannot bring us their own arguments or come forward to declare to us what will happen so we may know these things well. We cannot hear them because they cannot speak to tell us their earlier predictive declarations, so we cannot reflect on them and know how they were fulfilled.
Can you lead light and darkness to their places of work? Can you find the way back to their houses for them? Undoubtedly you know, for you were born then; the number of your days is so large!" (Job 38:20, 21 Ult)

You act like you know how light and darkness were created, as if you were there; as if you are as old as creation, but you are not!

Merism

Definition

Merism is a figure of speech in which a person refers to something by speaking of two extreme parts of it. By referring to the extreme parts, the speaker intends to include also everything in between those parts.

“I am the Alpha and the Omega,” says the Lord God, “the one who is, and who was, and who is to come, the Almighty.” (Revelation 1:8, ULT)

I am the Alpha and the Omega, the First and the Last, the Beginning and the End. (Revelation 22:13, ULT)

Alpha and Omega are the first and last letters of the Greek alphabet. This is a merism that includes everything from the beginning to the end. It means eternal.

“Heaven and earth” is a merism that includes everything that exists.

Reason this is a translation issue

Some languages do not use merism. The readers of those languages may think that the phrase only applies to the items mentioned. They may not realize that it refers to those two things and everything in between.

Examples from the Bible

From the rising of the sun to its setting, Yahweh’s name should be praised. (Psalm 113:3 ULT)

This underlined phrase is a merism because it speaks of the east and the west and everywhere in between. It means “everywhere”.

He will bless those who honor him, both young and old. (Psalm 115:13)

The underlined phrase is merism because it speaks of, old people and young people and everyone in between. It means “everyone”.

Translation Strategies

If the merism would be natural and give the right meaning in your language, consider using it. If not, here are other options:

1. Identify what the merism refers to without mentioning the parts.
2. Identify what the merism refers to and include the parts.

Examples of Translation Strategies Applied

(1) Identify what the merism refers to without mentioning the parts.

I praise you, Father, Lord of heaven and earth

... (Matthew 11:25 ULT)

I praise you, Father, Lord of everything...

This page answers the question: What does the word merism mean and how can I translate phrases that have it?

In order to understand this topic, it would be good to read:

[[rc://en/ta/man/translate/figs-intro]]
From the rising of the sun to its setting
, Yahweh's name should be praised. (Psalm 113:3 ULT)

In all places, people should praise Yahweh's name.

(2) Identify what the merism refers to and include the parts.

I praise you, Father, Lord of heaven and earth
(Matthew 11:25 ULT)

I praise you, Father, Lord of everything, including both what is in heaven and what is on earth.

He will bless those who honor him, both young and old
(Psalm 115:13 ULT)

He will bless all those who honor him, regardless of whether they are young or old.

Metaphor

Description

A metaphor is a figure of speech in which someone speaks of one thing as if it were a different thing because he wants people to think about how those two things are alike.

For example, someone might say:

- The girl I love is a red rose.

A girl and a rose are very different things, but the speaker considers that they are alike in some way. The hearer's task is to understand in what way they are alike.

The Parts of a Metaphor

The example above shows us that a metaphor has three parts. In this metaphor, the speaker is talking about "the girl I love". This is the Topic. The speaker wants the hearer to think about what is similar between her and "a red rose." The red rose is the Image to which he compares the girl. Most probably, he wants the hearer to consider that they are both beautiful. This is the Idea that the girl and the rose both share, and so we may also call it the Point of Comparison.

Every metaphor has three parts:

- The Topic, the item being immediately discussed by the writer/speaker.
- The Image, the physical item (object, event, action, etc.) which the speaker uses to describe the topic.
- The Idea, the abstract concept or quality that the physical Image brings to the mind of the hearer when he thinks of how the Image and the Topic are similar. Often, the Idea of a metaphor is not explicitly stated in the Bible, but it is only implied from the context. The hearer or reader usually needs to think of the Idea himself.

Using these terms, we can say that a metaphor is a figure of speech that uses a physical Image to apply an abstract Idea to the speaker's Topic.

Usually, a writer or speaker uses a metaphor in order to express something about a Topic, with at least one Point of Comparison (Idea) between the Topic and the Image. Often in metaphors, the Topic and the Image are explicitly stated, but the Idea is only implied. The writer/speaker often uses a metaphor in order to invite the readers/listeners to think about the similarity between the Topic and the Image and to figure out for themselves the Idea that is being communicated.

Speakers often use metaphors in order to strengthen their message, to make their language more vivid, to express their feelings better, to say something that is hard to say in any other way, or to help people remember their message.

Sometimes speakers use metaphors that are very common in their language. However, sometimes speakers use metaphors that are uncommon, and even some metaphors that are unique. When a metaphor has become very common in a language, often it becomes a "passive" metaphor, in contrast to uncommon metaphors, which we describe as being "active." Passive metaphors and active metaphors each present a different kind of translation problem, which we will discuss below.

Passive Metaphors

A passive metaphor is a metaphor that has been used so much in the language that its speakers no longer regard it as one concept standing for another. Linguists often call these "dead metaphors." Passive metaphors are extremely common. Examples in English include the terms “table leg”, “family tree”, “book leaf” (meaning a page in
a book), or the word “crane” (meaning a large machine for lifting heavy loads). English speakers simply think of these words as having more than one meaning. Examples of passive metaphors in Biblical Hebrew include using the word “hand” to represent “power,” using the word “face” to represent “presence,” and speaking of emotions or moral qualities as if they were “clothing.”

**Patterned Pairs of Concepts acting as Metaphors**

Many ways of metaphorical speaking depend on pairs of concepts, where one underlying concept frequently stands for a different underlying concept. For example, in English, the direction UP (the Image) often represents the concepts of MORE or BETTER (the Idea). Because of this pair of underlying concepts, we can make sentences such as “The price of gasoline is going up,” “A highly intelligent man,” and also the opposite kind of idea: “The temperature is going down,” and “I am feeling very low.”

Patterned pairs of concepts are constantly used for metaphorical purposes in the world's languages, because they serve as convenient ways to organize thought. In general, people like to speak of abstract qualities (such as power, presence, emotions, and moral qualities) as if they were body parts, or as if they were objects that could be seen or held, or as if they were events that could be watched as they happened.

When these metaphors are used in normal ways, it is rare that the speaker and audience regard them as figurative speech. Examples of metaphors in English that go unrecognized are:

- “Turn the heat up.” MORE is spoken of as UP.
- “Let us go ahead with our debate.” DOING WHAT WAS PLANNED is spoken of as WALKING or ADVANCING.
- “You defend your theory well.” ARGUMENT is spoken of as WAR.
- “A flow of words” WORDS are spoken of as LIQUIDS.

English speakers do not view these as metaphorical expressions or figures of speech, so it would be wrong to translate them into other languages in a way that would lead people to pay special attention to them as figurative speech. For a description of important patterns of this kind of metaphor in biblical languages, please see Biblical Imagery - Common Patterns and the pages it will direct you to.

When translating something that is a passive metaphor into another language, do not treat it as a metaphor. Instead, just use the best expression for that thing or concept in the target language.

**Active Metaphors**

These are metaphors that people recognize as one concept standing for another concept, or one thing for another thing. They make people think about how the one thing is like the other thing, because in most ways the two things are very different. People also easily recognize these metaphors as giving strength and unusual qualities to the message. For this reason, people pay attention to these metaphors. For example,

> For you who fear my name, the sun of righteousness will rise with healing in its wings.  
> (Malachi 4:2 ULT)

Here God speaks about his salvation as if it were the sun rising in order to shine its rays on the people whom he loves. He also speaks of the sun's rays as if they were wings. Also, he speaks of these wings as if they were bringing medicine that would heal his people. Here is another example:

> Jesus said, “Go and tell that fox...,” (Luke 13:32 ULT)

Here, “that fox” refers to King Herod. The people listening to Jesus certainly understood that Jesus was intending for them to apply certain characteristics of a fox to Herod. They probably understood that Jesus intended to communicate that Herod was evil, either in a cunning way or as someone who was destructive, murderous, or who took things that did not belong to him, or all of these.

Active metaphors are the metaphors that need special care to translate correctly. To do so, you need to understand the parts of a metaphor and how they work together to produce meaning.
Jesus said to them, “I am the bread of life; he who comes to me will not be hungry, and he who believes in me will never be thirsty.” (John 6:35 ULT)

In this metaphor, Jesus called himself the bread of life. The **Topic** is “I” (meaning Jesus himself) and the **Image** is “bread.” Bread was the primary food that people ate in that place and time. The similarity between bread and Jesus is that people need both to live. Just as people need to eat food in order to have physical life, people need to trust in Jesus in order to have eternal life. The **Idea** of the metaphor is “life.” In this case, Jesus stated the central **Idea** of the metaphor, but often the **Idea** is only implied.

**Purposes of Metaphor**

- One purpose of metaphor is to teach people about something that they do not know (the **Topic**) by showing that it is like something that they already do know (the **Image**).
- Another purpose is to emphasize that something (the **Topic**) has a particular quality (the **Idea**) or to show that it has that quality in an extreme way.
- Another purpose is to lead people to feel the same way about the **Topic** as they would feel about the **Image**.

**Reasons this is a translation issue**

- People may not recognize that something is a metaphor. In other words, they may mistake a metaphor for a literal statement, and thus misunderstand it.
- People may not be familiar with the thing that is used as an image, and so not be able to understand the metaphor.
- If the topic is not stated, people may not know what the topic is.
- People may not know the points of comparison that the speaker wants them to understand. If they fail to think of these points of comparison, they will not understand the metaphor.
- People may think that they understand the metaphor, but they do not. This can happen when they apply points of comparison from their own culture, rather than from the biblical culture.

**Translation Principles**

- Make the meaning of a metaphor as clear to the target audience as it was to the original audience.
- Do not make the meaning of a metaphor more clear to the target audience than you think it was to the original audience.

**Examples from the Bible**

**Listen to this word, you cows of Bashan,** (Amos 4:1 ULT)

In this metaphor Amos speaks to the upper-class women of Samaria (“you”, the **Topic**) as if they were cows (the **Image**). Amos does not say what similarity(s) he intends between these women and cows. He wants the reader to think of them, and he fully expects that readers from his culture will easily do so. From the context, we can see that he means that the women are like cows in that they are fat and interested only in feeding themselves. If we were to apply similarities from a different culture, such as that cows are sacred and should be worshipped, we would get the wrong meaning from this verse.

**NOTE:** Amos does not actually mean that the women are cows. He speaks to them as human beings.

**And yet, Yahweh, you are our father; we are the clay. You are our potter; and we all are the work of your hand.** (Isaiah 64:8 ULT)

The example above has two related metaphors. The **Topic(s)** are “we” and “you,” and the **Image(s)** are “clay” and “potter.” The similarity between a potter and God is the fact that both make what they wish out of their material. The potter makes what he wishes out of the clay, and God makes what he wishes out of his people. The **Idea** being expressed by the comparison between the potter’s clay and “us” is that neither the clay nor God’s people have a right to complain about what they are becoming.
Jesus said to them, “Take heed and beware of the yeast of the Pharisees and Sadducees.” The disciples reasoned among themselves and said, “It is because we took no bread.” (Matthew 16:6-7 ULT)

Jesus used a metaphor here, but his disciples did not realize it. When he said “yeast,” they thought he was talking about bread, but “yeast” was the Image in his metaphor, and the Topic was the teaching of the Pharisees and Sadducees. Since the disciples (the original audience) did not understand what Jesus meant, it would not be good to state clearly here what Jesus meant.

**Translation Strategies**

If people would understand the metaphor in the same way that the original readers would have understood it, go ahead and use it. Be sure to test the translation to make sure that people do understand it in the right way.

If people do not or would not understand it, here are some other strategies.

1. If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, it is a passive metaphor), then express the *Idea* in the simplest way preferred by your language.
2. If the metaphor seems to be an active metaphor, you can translate it literally *if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible*. If you do this, be sure to test it to make sure that the language community understands it correctly.
3. If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.” See Simile.
4. If the target audience would not know the *Image*, see Translate Unknowns for ideas on how to translate that image.
5. If the target audience would not use that *Image* for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.
6. If the target audience would not know what the *Topic* is, then state the topic clearly. (However, do not do this if the original audience did not know what the Topic was.)
7. If the target audience would not know the intended similarity (the *Idea*) between the topic and the image, then state it clearly.
8. If none of these strategies is satisfactory, then simply state the *Idea* plainly without using a metaphor.

**Examples of Translation Strategies Applied**

(1) If the metaphor is a common expression in the source language or expresses a patterned pair of concepts in a biblical language (that is, a passive metaphor), then express the *Idea* in the simplest way preferred by your language.

> Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, fell at his feet. (Mark 5:22 ULT)

> Then one of the leaders of the synagogue, named Jairus, came, and when he saw him, *immediately bowed down in front of him*.

(2) If the metaphor seems to be an active metaphor, you can translate it literally *if you think that the target language also uses this metaphor in the same way to mean the same thing as in the Bible*. If you do this, be sure to test it to make sure that the language community understands it correctly.

> It was because of your *hard hearts* that he wrote you this law, (Mark 10:5 ULT)

> It was because of your *hard hearts* that he wrote you this law,
We made no change to this one, but it must be tested to make sure that the target audience correctly understands this metaphor.

(3) If the target audience does not realize that it is a metaphor, then change the metaphor to a simile. Some languages do this by adding words such as “like” or “as.”

And yet, Yahweh, you are our father; we are the clay.

And yet, Yahweh, you are our father; we are like clay. You are like a potter; and we all are the work of your hand. (Isaiah 64:8 ULT)

(4) If the target audience would not know the Image, see Translate Unknowns for ideas on how to translate that image.

Saul, Saul, why do you persecute me? It is hard for you to kick a goad.

(Acts 26:14 ULT)

Saul, Saul, why do you persecute me? It is hard for you to kick against a pointed stick.

(5) If the target audience would not use that Image for that meaning, use an image from your own culture instead. Be sure that it is an image that could have been possible in Bible times.

“And yet, Yahweh, you are our father; we are the wood. You are our carver; and we all are the work of your hand.”

“And yet, Yahweh, you are our father; we are the string. You are the weaver; and we all are the work of your hand.”

(6) If the target audience would not know what the Topic is, then state the topic clearly. (However, do not do this if the original audience did not know what the topic was.)

Yahweh lives; may my rock be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; He is my rock. May he be praised. May the God of my salvation be exalted.

(7) If the target audience would not know the intended similarity between the Topic and the Image, then state it clearly.

Yahweh lives; may my rock be praised. May the God of my salvation be exalted. (Psalm 18:46 ULT)

Yahweh lives; may he be praised because he is the rock under which I can hide from my enemies. May the God of my salvation be exalted.

Saul, Saul, why do you persecute me? It is hard for you to kick a goad.

(Acts 26:14 ULT)

Saul, Saul, why do you persecute me? You fight against me and hurt yourself like an ox that kicks against its owner’s pointed stick.

(8) If none of these strategies are satisfactory, then simply state the idea plainly without using a metaphor.
I will make you become fishers of men. (Mark 1:17 ULT)

I will make you become people who gather men. Now you gather fish. I will make you gather people.

**Metonymy**

**Description**

Metonymy is a figure of speech in which an item (either physical or abstract) is called not by its own name, but by the name of something closely associated with it. A metonym is a word or phrase used as a substitute for something that it is associated with.

- and **the blood** of Jesus his Son cleanses us from all sin. (1 John 1:7 ULT)

The blood represents Christ’s death.

- He took **the cup** in the same way after supper, saying, “**This cup** is the new covenant in my blood, which is poured out for you. (Luke 22:20 ULT)

The cup represents the wine that is in the cup.

**Metonymy can be used**

• as a shorter way of referring to something
• to make an abstract idea more meaningful by referring to it with the name of a physical object associated with it

**Reason this is a translation issue**

The Bible uses metonymy very often. Speakers of some languages are not used to metonymy and they may not recognize it when they read it in the Bible. If they do not recognize the metonym, they will not understand the passage or, worse yet, they will get a wrong understanding of the passage. Whenever a metonym is used, people need to be able to understand what it represents.

**Examples from the Bible**

- The Lord God will give him **the throne** of his father, David. (Luke 1:32 ULT)

A throne represents the authority of a king. “Throne” is a metonym for “kingly authority,” “kingship,” or “reign.” This means that God would make him become a king who would follow King David.

- Immediately his **mouth** was opened (Luke 1:64 ULT)

The mouth here represents the power to speak. This means that he was able to talk again.

- ...who warned you to flee from **the wrath** that is coming? (Luke 3:7 ULT)

The word “wrath” or “anger” is a metonym for “punishment.” God was extremely angry with the people, and as a result, he would punish them.

**Translation Strategies**

If people would easily understand the metonym, consider using it. Otherwise, here are some options.

1. Use the metonym along with the name of the thing it represents.
2. Use only the name of the thing the metonym represents.
Examples of Translation Strategies Applied

(1) Use the metonym along with the name of the thing it represents.

He took the cup in the same way after supper, saying, “This cup is the new covenant in my blood, which is poured out for you.” (Luke 22:20 ULT)

“The Lord God will give him of his father, David.” (Luke 1:32 ULT)

Blood, which is poured out for you. (Luke 22:20 ULT)

This cup He took the cup in the same way after supper, saying, "The wine in this cup is the new covenant in my blood, which is poured out for you."

(2) Use the name of the thing the metonym represents.

The Lord God will give him the throne of his father, David. (Luke 1:32 ULT)

“The Lord God will give him the kingly authority of his father, David.”

or:

“The Lord God will make him king like his ancestor, King David.”

who warned you to flee from the wrath to come? (Luke 3:7 ULT)

“who warned you to flee from God's coming punishment?”

To learn about some common metonyms, see Biblical Imagery - Common Metonyms.

Nominal Adjectives

Description

In some languages an adjective can be used to refer to a class of things that the adjective describes. When it does, it acts like a noun. For example, the word “rich” is an adjective. Here are two sentences that show that “rich” is an adjective.

...The rich man had huge numbers of flocks and herds... (2 Samuel 12:2 ULT)

The adjective “rich” comes before the word “man” and describes “man”.

He will not be rich; his wealth will not last... (Job 15:29 ULT)

The adjective “rich” comes after the verb “be” and describes “He”.

Here is a sentence that shows that “rich” can also function as a noun.

...the rich must not give more than the half shekel, and the poor must not give less. (Exodus 30:15 ULT)

In Exodus 30:15, the word “rich” acts as a noun in the phrase “the rich”, and it refers to rich people. The word “poor” also acts as a noun and refers to poor people.

Reason this is a translation issue

• Many times in the Bible adjectives are used as nouns to describe a group of people.
• Some languages do not use adjectives in this way.
• Readers of these languages may think that the text is talking about one particular person when it is really talking about the group of people whom the adjective describes.

Examples from the Bible

The scepter of wickedness must not rule in the land of the righteous. (Psalms 125:3 ULT)

“The righteous” here are people who are righteous, not one particular righteous person.

Blessed are the meek (Matthew 5:5 ULT)

“The meek” here are all people who are meek, not one particular meek person.

Translation Strategies

If your language uses adjectives as nouns to refer to a class of people, consider using the adjectives in this way. If it would sound strange, or if the meaning would be unclear or wrong, here is another option:

1. Use the adjective with a plural form of the noun that the adjective describes.

Examples of Translation Strategies Applied

(1) Use the adjective with a plural form of the noun that the adjective describes.

The scepter of wickedness must not rule in the land of the righteous

(Psalms 125:3 ULT)
The scepter of wickedness must not rule in the land of righteous people.

Blessed are the meek

... (Matthew 5:5 ULT)

Blessed are people who are meek...

Numbers

Description

There are many numbers in the Bible. They can be written as words (“five”) or as numerals (“5”). Some numbers are very large, such as “two hundred” (200), “twenty-two thousand” (22,000), or “one hundred million” (100,000,000). Some languages do not have words for all of these numbers. Translators need to decide how to translate numbers and whether to write them as words or numerals.

Some numbers are exact and others are rounded.

A Abram was eighty-six years old when Hagar bore Ishmael to Abram. (Genesis 16:16 ULT)

Eighty-six (86) is an exact number.

That day about three thousand men out of the people died. (Exodus 32:28 ULT)

Here the number three thousand is a round number. It may have been a little more than that or a little less than that. The word “about” shows that it is not an exact number.

Reason this is a translation issue

Some languages do not have words for some of these numbers.

Translation Principles

- Exact numbers should be translated as closely and specifically as they can be.
- Rounded numbers can be translated more generally.

Examples from the Bible

When Jared had lived 162 years, he became the father of Enoch. After he became the father of Enoch, Jared lived eight hundred years. He became the father of more sons and daughters. Jared lived 962 years, and then he died. (Genesis 5:18-20 ULT)

The numbers 162, eight hundred, and 962 are exact numbers and should be translated with something as close to those numbers as possible.

Our sister, may you be the mother of thousands of ten thousands (Genesis 24:60 ULT)

This is a rounded number. It does not say exactly how many descendants she should have, but it was a huge number of them.

Translation Strategies

1. Write numbers using numerals.
2. Write numbers using your language's words or the gateway language words for those numbers.
3. Write numbers using words, and put the numerals in parentheses after them.
4. Combine words for large numbers.
5. Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.
Examples of Translation Strategies Applied

We will use the following verse in our examples:

Now, see, at great effort I have prepared for Yahweh's house 100,000 talents of gold, one million talents of silver, and bronze and iron in large quantities. (1 Chronicles 22:14 ULT)

(1) Write numbers using numerals.

I have prepared for Yahweh's house 100,000 talents of gold, 1,000,000 talents of silver, and bronze and iron in large quantities.

(2) Write numbers using your language's words or the gateway language words for those numbers.

I have prepared for Yahweh's house one hundred thousand talents of gold, one million talents of silver, and bronze and iron in large quantities.

(3) Write numbers using words, and put the numerals in parenthesis after them.

I have prepared for Yahweh's house one hundred thousand (100,000) talents of gold, one million (1,000,000) talents of silver, and bronze and iron in large quantities.

(4) Combine words for large numbers.

I have prepared for Yahweh's house one hundred thousand talents of gold, a thousand talents of silver, and bronze and iron in large quantities.

(5) Use a very general expression for very large rounded numbers and write the numeral in parentheses afterward.

I have prepared for Yahweh's house a great amount of gold (100,000 talents), ten times that amount of silver (1,000,000 talents), and bronze and iron in large quantities.

Consistency

Be consistent in your translations. Decide how the numbers will be translated, using numbers or numerals. There are different ways of being consistent.

• Use words to represent numbers all of the time. (You might have very long words.)
• Use numerals to represent numbers all of the time.
• Use words to represent the numbers that your language has words for and use numerals for the numbers that your language does not have words for.
• Use words for low numbers and numerals for high numbers.
• Use words for numbers that require few words and numerals for numbers that require more than a few words.
• Use words to represent numbers, and write the numerals in parentheses after them.

Consistency in the ULT and UST

The unfoldingWord® Literal Text (ULT) and the unfoldingWord® Simplified Text (UST) use words for numbers that have only one or two words (nine, sixteen, three hundred). They use numerals for numbers that have more than two words (the numerals “130” instead of “one hundred thirty”).

When Adam had lived 130 years, he became the father of a son in his own likeness, after his image, and he called his name Seth. After Adam became the father of Seth, he lived eight hundred years. He became the father of more sons and daughters. Adam lived 930 years, and then he died. (Genesis 5:3-5 ULT)

Order of Events

Description

In the Bible, events are not always told in the order in which they occurred. Sometimes the author wanted to discuss something that happened at an earlier time than the event that he just talked about. This can be confusing to the reader.

Reason this is a translation issue: Readers might think that the events happened in the order that they are told. It is important to help them understand the correct order of events.

Examples from the Bible

But then Herod...had John locked up in prison. Now it came about, while all the people were being baptized by John, that Jesus also was baptized. (Luke 3:20-21 ULT)

This could sound like John baptized Jesus after John was locked up in prison, but John baptized Jesus before John was locked up in prison.

Just as Joshua had said to the people, the seven priests carried the seven trumpets of rams horns before Yahweh, as they advanced, they gave a blast on the trumpets... But Joshua commanded the people, saying, “Do not shout. No sound must leave your mouths until the day I tell you to shout. Only then must you shout.” (Joshua 6:8-10 ULT)

This could sound like Joshua gave the order not to shout after the army had already started their march, but he had given that order before they started marching.

Who is worthy to open the scroll and break its seals? (Revelation 5:2 ULT)

This sounds like a person must first open the scroll and then break its seals, but the seals that lock the scroll must be broken before the scroll can be unrolled.

Translation Strategies

1. If your language uses phrases or time words to show that an event happened before one that was already mentioned, consider using one of them.
2. If your language uses verb tense or aspect to show that an event happened before one that was already mentioned, consider using that. (See the section on "Aspect" of Verbs.)
3. If your language prefers to tell events in the order that they occurred, consider reordering the events so they they are in that order. This may require putting two or more verses together (like 5-6). (See Verse Bridges.)

Examples of Translation Strategies Applied

(1) If your language uses phrases, time words or tenses to show that an event happened before the one just mentioned, consider using one of them.

20 But then Herod...had John locked up in prison. 21 Now it came about, while all the people were being baptized by John, that Jesus also was baptized. (Luke 3:20-21 ULT)

20 But then Herod...had John locked up in prison. 21 Before John was put in prison, while all the people were being baptized by John, Jesus also was baptized.

Who is worthy to open the scroll after breaking its seals?

(2) If your language uses verb tense or aspect to show that an event happened before one that was already mentioned, consider using that.

8 Just as Joshua had said to the people, the seven priests carried the seven trumpets of rams’ horns before Yahweh, as they advanced, they gave a blast on the trumpets... 10 But Joshua commanded the people, saying, “Do not shout. Ordinal Numbers

Description

Ordinal numbers are used in the Bible mainly to tell the position of something in a list.

He gave to the church first apostles, second prophets, third teachers, then those who do powerful deeds (1 Corinthians 12:28 ULT)

This is a list of workers that God gave to the church in their order.

Ordinal Numbers in English

Most ordinal numbers in English simply have “-th” added to the end.

Reason this is a translation issue:

Some languages do not have special numbers for showing the order of items in a list. There are different ways to deal with this.

Examples from the Bible

The first lot went to Jehoiarib, the second to Jedaiah, the third to Harim, the fourth to Seorim, ... the twenty-third to Delaiah, and the twenty-fourth to Maaziah. (1 Chronicles 24:7-18 ULT)

The people cast lots and one went to each of these people in the order given.

You must place in it four rows of precious stones. The first row must have a ruby, a topaz, and a garnet. The second row must have an emerald, a sapphire, and a diamond. The third row
must have a jacinth, an agate, and an amethyst. The fourth row must have a beryl, and an onyx, and a jasper. They must be mounted in gold settings. (Exodus 28:17-20 ULT)

This describes four rows of stones. The first row is probably the top row, and the fourth row is probably the bottom row.

**Translation Strategies**

If your language has ordinal numbers and using them would give the right meaning, consider using them. If not, here are some strategies to consider:

1. Use “one” with the first item and “another” or “the next” with the rest.
2. Tell the total number of items and then list them or the things associated with them.

**Examples of Translation Strategies Applied**

(1) Tell the total number of items, and use “one” with the first item and “another” or “the next” with the rest.

The first lot went to Jehoiarib, the second to Jedaiah, the third to Harim, the fourth to Seorim,...the twenty-third to Delaiah, and the twenty-fourth to Maaziah. (1 Chronicles 24:7-18 ULT)

There were twenty-four lots. One lot went to Jehoiarib, another to Jedaiah, another to Harim,...another to Delaiah, and the last went to Maaziah.

A river went out of Eden to water the garden. From there it divided and became four rivers. The name of the first is Pishon. It is the one which flows throughout the whole land of Havilah, where there is gold. The gold of that land is good. There is also bdellium and the onyx stone there. The name of the second river is Gihon. This one flows throughout the whole land of Cush. The name of the third river is Tigris, which flows east of Asshur. The fourth river is the Euphrates. (Genesis 2:10-14 ULT)

Parables

A parable is a short story that teaches something(s) that is true, and teaches in such a way that is easy to understand and hard to forget.

Description

A parable is a short story that is told to teach something(s) that is true. Though the events in a parable could happen, they did not actually happen. They are told only to teach the lesson(s) that the listener is meant to learn. Parables rarely contain the names of specific people. (This may help you identify what is a parable and what is an account of a real event.) Parables often have figures of speech such as simile and metaphor.

Then he also told them a parable. “Can a blind person guide another blind person? If he did, they would both fall into a pit, would they not?” (Luke 6:39 ULT)

This parable teaches that if a person does not have spiritual understanding, he cannot help someone else to understand spiritual things.

Examples from the Bible

Neither do people light a lamp and put it under a basket, but rather, on the lampstand, and it shines for everyone in the house. Let your light shine before people in such a way that they see your good deeds and praise your Father who is in heaven. (Matthew 5:15-16 ULT)

This parable teaches us not to hide the way we live for God from other people.

Then Jesus presented another parable to them. He said, “The kingdom of heaven is like a mustard seed which a man took and sowed in his field. This seed is indeed the smallest of all other seeds. But when it has grown, it is greater than the garden plants and becomes a tree, so that the birds of the air come and nest in its branches.” (Matthew 13:31-32 ULT)

This parable teaches that the kingdom of God may seem small at first, but it will grow and spread throughout the world.

Translation Strategies

1. If a parable is hard to understand because it has unknown objects in it, you can replace the unknown objects with objects that people in your culture know. However, be careful to keep the teaching the same. (See Translate Unknowns.)

2. If the teaching of the parable is unclear, consider telling a little about what it teaches in the introduction, such as “Jesus told this story about being generous.”

Examples of Translation Strategies Applied

(1) If a parable is hard to understand because it has unknown objects in it, you can replace the unknown objects with objects that people in your culture know. However, be careful to keep the teaching the same.

Jesus said to them, “Do you bring a lamp inside the house to put it under a basket, or under the bed? You bring it in and you put it on a lampstand 

“. (Mark 4:21 ULT) - If people do not know what a lampstand is, you could substitute something else that people put a light on so it can give light to the house.
Jesus said to them, “Do you bring a lamp inside the house to put it under a basket, or under the bed? You bring it in and you put it on a high shelf.

Then Jesus presented another parable to them. He said, “The kingdom of heaven is like a mustard seed which a man took and sowed in his field. This seed is indeed the smallest of all other seeds. But when it has grown, it is greater than the garden plants and becomes a tree, so that the birds of the air come and nest in its branches.” (Matthew 13:31-32 ULT) - To sow seeds means to toss them so that they scatter on the ground. If people are not familiar with sowing, you can substitute planting.

Jesus said to them, “Do you bring a lamp inside the house to put it under a basket, or under the bed? You bring it in and you put it on a lampstand”. (Mark 4:21 ULT)

Jesus told them a parable about why they should witness openly. “Do you bring a lamp inside the house to put it under a basket, or under the bed? You bring it in and you put it on a lampstand.” (Mark 4:21 ULT)

Then Jesus presented another parable to them. He said, “The kingdom of heaven is like a mustard seed which a man took and planted in his field. This seed is indeed the smallest of all other seeds. But when it has grown, it is greater than the garden plants and becomes a tree, so that the birds of the air come and nest in its branches.”

(2) If the teaching of the parable is unclear, consider telling a little about what it teaches in the introduction, such as “Jesus told this story about being generous.”

Then Jesus presented another parable to them about how the Kingdom of God grows. He said, “The kingdom of heaven is like a mustard seed which a man took and sowed in his field. But when it has grown, it is greater than the garden plants and becomes a tree, so that the birds of the air come and nest in its branches.” (Matthew 13:31-32 ULT)

Parallelism

Description

In parallelism two phrases or clauses that are similar in structure or idea are used together. There are different kinds of parallelism. Some of them are the following:

1. The second clause or phrase means the same as the first. This is also called synonymous parallelism.
2. The second clarifies or strengthens the meaning of the first.
3. The second completes what is said in the first.
4. The second says something that contrasts with the first, but adds to the same idea.

Parallelism is most commonly found in Old Testament poetry, such as in the books of Psalms and Proverbs. It also occurs in Greek in the New Testament, both in the four gospels and in the apostles’ letters.

Synonymous parallelism (the kind in which the two phrases mean the same thing) in the poetry of the original languages has several effects:

- It shows that something is very important by saying it more than once and in more than one way.
- It helps the hearer to think more deeply about the idea by saying it in different ways.
- It makes the language more beautiful and above the ordinary way of speaking.

Reason this is a translation issue

Some languages would not use synonymous parallelism. They would either think it odd that someone said the same thing twice, or they would think that the two phrases must have some difference in meaning. For them it is confusing, rather than beautiful.

Note: We use the term “synonymous parallelism” for long phrases or clauses that have the same meaning. We use the term Doublet for words or very short phrases that mean basically the same thing and are used together.

Examples from the Bible

(1) The second clause or phrase means the same as the first.

Your word is a lamp to my feet and a light for my path. (Psalm 119:105 ULT)

Both parts of the sentence are metaphors saying that God's word teaches people how to live.

You make him to rule over the works of your hands; you have put all things under his feet (Psalm 8:6 ULT)

Both lines say that God made man the ruler of everything.

(2) The second clarifies or strengthens the meaning of the first.

The eyes of Yahweh are everywhere, keeping watch over the evil and the good. (Proverbs 15:3 ULT)

The second line tells more specifically what Yahweh watches.

(3) The second completes what is said in the first.
I lift up my voice to Yahweh, 
and he answers me from his holy hill. (Psalm 3:4 ULT)

The second line tells what Yahweh does in response to what the person does in the first clause.

(4) **The second says something that contrasts with the first, but adds to the same idea.**

For Yahweh approves of the way of the righteous, 
but the way of the wicked will perish. (Psalm 1:6 ULT)

This contrasts what happens to righteous people with what happens to wicked people.

A gentle answer turns away wrath, 
but a harsh word stirs up anger. (Proverbs 15:1 ULT)

This contrasts what happens when someone gives a gentle answer with what happens when someone says something harsh.

**Translation Strategies**

For most kinds of parallelism, it is good to translate both of the clauses or phrases. For synonymous parallelism, it is good to translate both clauses if people in your language understand that the purpose of saying something twice is to strengthen a single idea. But if your language does not use parallelism in this way, then consider using one of the following translation strategies.

1. Combine the ideas of both clauses into one.
2. If it appears that the clauses are used together to show that what they say is really true, you could include words that emphasize the truth such as “truly” or “certainly.”
3. If it appears that the clauses are used together to intensify an idea in them, you could use words like “very,” “completely” or “all.”

**Examples of Translation Strategies Applied**

(1) Combine the ideas of both clauses into one.

**Until now you have deceived me and told me lies.** (Judges 16:13, ULT) - Delilah expressed this idea twice to emphasize that she was very upset.

“Until now you have deceived me with your lies.”

**Yahweh sees everything a person does and watches all the paths he takes.** (Proverbs 5:21 ULT) - The phrase “all the paths he takes” is a metaphor for “all he does.”

“Yahweh pays attention to everything a person does.”

**For Yahweh has a lawsuit with his people, and he will fight in court against Israel.** (Micah 6:2 ULT) - This parallelism describes one serious disagreement that Yahweh had with one group of people. If this is unclear, the phrases can be combined:

“For Yahweh has a lawsuit with his people, Israel.”

(2) If it appears that the clauses are used together to show that what they say is really true, you could include words that emphasize the truth such as “truly” or “certainly.”

**Yahweh sees everything a person does and watches all the paths he takes.** (Proverbs 5:21 ULT)

“Yahweh truly sees everything a person does.”
(3) If it appears that the clauses are used together to intensify an idea in them, you could use words like “very,” “completely” or “all.”

- **you have deceived me and told me lies.** *(Judges 16:13 ULT)*
  - “All you have done is lie to me.”

- **Yahweh sees everything a person does and watches all the paths he takes.** *(Proverbs 5:21 ULT)*
  - “Yahweh sees absolutely everything that a person does.”

(***Go back to: 2 Chronicles 6:37; 7:22; 10:4; 29:6; 30:27; 34:28***)
**Personification**

**Description**

Personification is a figure of speech in which someone speaks of something as if it could do things that animals or people can do. People often do this because it makes it easier to talk about things that we cannot see:

Such as wisdom:

- Does not Wisdom call out? (Proverbs 8:1 ULT)

Or sin:

- sin crouches at the door (Genesis 4:7 ULT)

People also do this because it is sometimes easier to talk about people's relationships with non-human things, such as wealth, as if they were relationships between people.

- You cannot serve God and wealth. (Matthew 6:24 ULT)

In each case, the purpose of the personification is to highlight a certain characteristic of the non-human thing. As in metaphor, the reader needs to think of the way that the thing is like a certain kind of person.

**Reasons this is a translation issue**

- Some languages do not use personification.
- Some languages use personification only in certain situations.

**Examples from the Bible**

- You cannot serve God and wealth. (Matthew 6:24 ULT)

Jesus speaks of wealth as if it were a master whom people might serve. Loving money and basing one's decisions on it is like serving it as a slave would serve his master.

- Does not Wisdom call out? Does not Understanding raise her voice? (Proverbs 8:1 ULT)

The author speaks of wisdom and understanding as if they are a woman who calls out to teach people. This means that they are not something hidden, but something obvious that people should pay attention to.

**Translation Strategies**

If the personification would be understood clearly, consider using it. If it would not be understood, here are some other ways for translating it.

1. Add words or phrases to make the human (or animal) characteristic clear.
2. In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.
3. Find a way to translate it without the personification.

**Examples of Translation Strategies Applied**

(1) Add words or phrases to make the human (or animal) characteristic clear.

- ...sin crouches
at the door (Genesis 4:7 ULT) - God speaks of sin as if it were a wild animal that is waiting for the chance to attack. This shows how dangerous sin is. An additional phrase can be added to make this danger clear.

...sin is at your door, waiting to attack you

(2) In addition to Strategy (1), use words such as “like” or “as” to show that the sentence is not to be understood literally.

...sin crouches at the door (Genesis 4:7 ULT) - This can be translated with the word “as.”

...sin is crouching at the door, just as a wild animal does waiting to attack a person.

(3) Find a way to translate it without the personification.

...even the winds and the sea obey him

(Matthew 8:27 ULT) - The men speak of the “wind and the sea” as if they are able to hear and obey Jesus, just as people can. This could also be translated without the idea of obedience by speaking of Jesus controlling them.

He even controls the winds and the sea.

NOTE: We have broadened our definition of “personification” to include “zoomorphism” (speaking of other things as if they had animal characteristics) and “anthropomorphism” (speaking of non-human things as if they had human characteristics) because the translation strategies for them are the same.
Reflexive Pronouns

Description

All languages have ways of showing that the same person fills two different roles in a sentence. English does this by using reflexive pronouns. These are pronouns that refer to someone or something that has already been mentioned in a sentence. In English the reflexive pronouns are: "myself", "yourself", "himself", "herself", "itself", "ourselves", "yourselves", and "themselves". Other languages may have other ways to show this.

Reason this is a translation issue

- Languages have different ways of showing that the same person fills two different roles in a sentence. For those languages, translators will need to know how to translate the English reflexive pronouns.
- The reflexive pronouns in English also have other functions.

Uses of Reflexive Pronouns

- To show that the same person or things fills two different roles in a sentence
- To emphasize a person or thing in the sentence
- To show that someone did something alone
- To show that someone or something was alone

Examples from the Bible

Reflexive pronouns are used to show the same person or thing fills two different roles in a sentence.

- If I should testify about myself alone, my testimony would not be true. (John 5:31 ULT)
- Now the Passover of the Jews was near, and many went up to Jerusalem out of the country before the Passover in order to purify themselves. (John 11:55 ULT)

Reflexive pronouns are used to emphasize a person or thing in the sentence.

- Jesus himself was not baptizing, but his disciples were (John 4:2 ULT)
- So they left the crowd, taking Jesus with them, since he was already in the boat. Other boats were also with him. And a violent windstorm arose and the waves were breaking into the boat so that the boat was already full. But Jesus himself was in the stern, asleep on a cushion. (Mark 4:36-38 ULT)

Reflexive pronouns are used to show that someone did something alone.

- When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain by himself. (John 6:15 ULT)

Reflexive pronouns are used to show that someone or something was alone.

- He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was rolled up in its place by itself. (John 20:6-7 ULT)
Translation Strategies

If a reflexive pronoun would have the same function in your language, consider using it. If not, here are some other strategies.

1. In some languages people put something on the verb to show that the object of the verb is the same as the subject.
2. In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.
3. In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it.
4. In some languages people show that someone did something alone by using a word like “alone”.
5. In some languages people show that something was alone by using a phrase that tells about where it was.

Examples of Translation Strategies Applied

(1) In some languages people put something on the verb to show that the object of the verb is the same as the subject.

If I should testify about myself alone, my testimony would not be true. (John 5:31)

“If I should self-testify alone, my testimony would not be true.”

Now the Passover of the Jews was near, and many went up to Jerusalem out of the country before the Passover in order to purify themselves.

(John 11:55)

“Now the Passover of the Jews was near, and many went up to Jerusalem out of the country before the Passover in order to self-purify.”

(2) In some languages people emphasize a certain person or thing by referring to it in a special place in the sentence.

He himself took our sickness and bore our diseases. (Matthew 8:17 ULT)

“It was he who took our sickness and bore our diseases.”

Jesus himself was not baptizing, but his disciples were. (John 4:2)

“It was not Jesus who was baptizing, but his disciples were.”

(3) In some languages people emphasize a certain person or thing by adding something to that word or putting another word with it. English adds the reflexive pronoun.

Now Jesus said this to test Philip, for he himself knew what he was going to do. (John 6:6)

(4) In some languages people show that someone did something alone by using a word like “alone”.

When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again up the mountain by himself.
“When Jesus realized that they were about to come and seize him by force to make him king, he withdrew again alone up the mountain.”

(5) In some languages people show that something was alone by using a phrase that tells about where it was.

He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was rolled up in its place by itself.

“He saw the linen cloths lying there and the cloth that had been on his head. It was not lying with the linen cloths but was rolled up and lying in its own place.”

(2 Chronicles 21:8; 21:15; 24:19)
Rhetorical Question

A rhetorical question is a question that a speaker asks when he is more interested in expressing his attitude about something than in getting information about it. Speakers use rhetorical questions to express deep emotion or to encourage hearers to think deeply about something. The Bible contains many rhetorical questions, often to express surprise, to rebuke or scold the hearer, or to teach. Speakers of some languages use rhetorical questions for other purposes as well.

Description

A rhetorical question is a question that strongly expresses the speaker’s attitude toward something. Often the speaker is not looking for information at all. Or, if he is asking for information, it is not usually the information that the question appears to ask for. The speaker is more interested in expressing his attitude than in getting information.

Those who stood by said, “Is this how you insult God’s high priest?” (Acts 23:4 ULT)

The people who asked Paul this question were not asking about his way of insulting God’s high priest. Rather they used this question to accuse Paul of insulting the high priest.

The Bible contains many rhetorical questions. These rhetorical questions might be used for the purpose of expressing attitudes or feelings, rebuking people, teaching something by reminding people of something they know and encouraging them to apply it to something new, or introducing something they want to talk about.

Reasons this is a translation issue

• Some languages do not use rhetorical questions; for them a question is always a request for information.
• Some languages use rhetorical questions, but for purposes that are different or more limited than in the Bible.
• Because of these differences between languages, some readers might misunderstand the purpose of a rhetorical question in the Bible.

Examples from the Bible

Do you not still rule the kingdom of Israel? (1 Kings 21:7 ULT)

Jezebel used the question above to remind King Ahab of something he already knew: he still ruled the kingdom of Israel. The rhetorical question made her point more strongly than if she had merely stated it, because it forced Ahab to admit the point himself. She did this in order to rebuke him for being unwilling to take over a poor man's property. She was implying that since he was the king of Israel, he had the power to take the man's property.

Will a virgin forget her jewelry, a bride her veils? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

God used the question above to remind his people of something they already knew: a young woman would never forget her jewelry or a bride forget her veils. He then rebuked his people for forgetting him, who is so much greater than those things.

Why did I not die when I came out from the womb? (Job 3:11 ULT)

Job used the question above to show deep emotion. This rhetorical question expresses how sad he was that he did not die as soon as he was born. He wished that he had not lived.
Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Or what man among you is there who, if his son asks him for a loaf of bread, will give him a stone? (Matthew 7:9 ULT)

Jesus used the question above to remind the people of something they already knew: a good father would never give his son something bad to eat. By introducing this point, Jesus could go on to teach them about God with his next rhetorical question:

Therefore, if you who are evil know how to give good gifts to your children, how much more will your Father from heaven give good things to those who ask him? (Matthew 7:11 ULT)

Jesus used this question to teach the people in an emphatic way that God gives good things to those who ask him.

What is the kingdom of God like, and what can I compare it to? It is like a mustard seed that a man took and threw into his garden... (Luke 13:18-19 ULT)

Jesus used the question above to introduce what he was going to talk about. He was about to compare the kingdom of God to something. In this case, he compared the kingdom of God to a mustard seed.

Translation Strategies

In order to translate a rhetorical question accurately, first be sure that the question you are translating truly is a rhetorical question and is not an information question. Ask yourself, “Does the person asking the question already know the answer to the question?” If so, it is a rhetorical question. Or, if no one answers the question, did the person who asked it expect to receive an answer? If not, it is a rhetorical question.

When you are sure that the question is rhetorical, then be sure that you understand the purpose for the rhetorical question. Is it to encourage or rebuke or shame the hearer? Is it to bring up a new topic? Is it to do something else?

When you know the purpose of the rhetorical question, then think of the most natural way to express that purpose in the target language. It might be as a question, or a statement, or an exclamation.

If using the rhetorical question would be natural and give the right meaning in your language, consider doing so. If not, here are other options:

1. Add the answer after the question.
2. Change the rhetorical question to a statement or exclamation.
3. Change the rhetorical question to a statement, and then follow it with a short question.
4. Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Examples of Translation Strategies Applied

(1) Add the answer after the question.

Will a virgin forget her jewelry, a bride her veils?

Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

Will a virgin forget her jewelry, a bride her veils? Of course not! Yet my people have forgotten me for days without number!

Or what man among you is there who, if his son asks him for a loaf of bread, will give him a stone? (Matthew 7:9 ULT)
Or what man among you is there who, if his son asks him for a loaf of bread, will give him a stone? *None of you would do that!*

(2) Change the rhetorical question to a statement or exclamation.

What is the kingdom of God like, and what can I compare it to?

It is like a mustard seed... (Luke 13:18-19 ULT)

*This is what the kingdom of God is like.* It is like a mustard seed..."

Is this how you insult God's high priest?

(Acts 23:4 ULT)

*You should not insult God's high priest!*

Why did I not die when I came out from the womb?

(Job 3:11 ULT)

*I wish I had died when I came out from the womb!*

And why has it happened to me that the mother of my Lord should come to me?

(Luke 1:43 ULT)

*How wonderful it is that the mother of my Lord has come to me!*

(3) Change the rhetorical question to a statement, and then follow it with a short question.

Do you not still rule

the kingdom of Israel? (1 Kings 21:7 ULT)

*You still rule the kingdom of Israel, do you not?*

(4) Change the form of the question so that it communicates in your language what the original speaker communicated in his.

Or what man among you is there who

, if his son asks him for a loaf of bread, will give him a stone? (Matthew 7:9 ULT)

*If your son asks you for a loaf of bread, would you give him a stone?*

Will a virgin forget her jewelry, a bride her veils

? Yet my people have forgotten me for days without number! (Jeremiah 2:32 ULT)

*What virgin would forget her jewelry, and what bride would forget her veils?* Yet my people have forgotten me for days without number

**Simile**

A simile is an explicit comparison of two things that are not normally thought to be similar. One is said to be “like” the other. It focuses on a particular trait the two items have in common, and it includes the words “like,” “as”, or “than”.

**Description**

A simile is a comparison of two things that are not normally thought to be similar. It focuses on a particular trait the two items have in common, and it includes the words “like,” “as”, or “than”.

When he saw the crowds, he had compassion for them, because they were worried and confused, because they were like sheep without a shepherd. (Matthew 9:36)

Jesus compared the crowds of people to sheep without a shepherd. Sheep grow frightened when they do not have a good shepherd to lead them in safe places. The crowds were like that because they did not have good religious leaders.

See, I send you out as sheep in the midst of wolves, so be as wise as serpents and harmless as doves. (Matthew 10:16 ULT)

Jesus compared his disciples to sheep and their enemies to wolves. Wolves attack sheep. Jesus’ enemies would attack his disciples.

For the word of God is living and active and sharper than any two-edged sword. (Hebrews 4:12 ULT)

God's word is compared to a two-edged sword. A two-edged sword is a weapon that can easily cut through a person's flesh. God's word is very effective in showing what is in a person's heart and thoughts.

**Purposes of Simile**

- A simile can teach about something that is unknown by showing how it is similar to something that is known.
- A simile can emphasize a particular trait, sometimes in a way that gets people's attention.
- Similes help form a picture in the mind or help the reader experience what he is reading about more fully.

**Reasons this is a translation issue**

- People may not know how the two items are similar.
- People may not be familiar with the item that something is compared to.

**Examples from the Bible**

Suffer hardship with me, as a good soldier of Christ Jesus. (2 Timothy 2:3 ULT)

In this simile, Paul compares suffering with what soldiers endure, and he encourages Timothy to follow their example.

for as the lightning appears when it flashes from one part of the sky to another part of the sky, so will the Son of Man be in his day. (Luke 17:24 ULT)

This verse does not tell how the Son of Man will be like the lightning. But from the context we can understand from the verses before it that just as lighting flashes suddenly and everyone can see it, the Son of Man will come suddenly and everyone will be able to see him. No one will have to be told about it.
Translation Strategies

If people would understand the correct meaning of a simile, consider using it. If they would not, here are some strategies you can use:

1. If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.
2. If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.
3. Simply describe the item without comparing it to another.

Examples of Translation Strategies Applied

(1) If people do not know how the two items are alike, tell how they are alike. However, do not do this if the meaning was not clear to the original audience.

See, I send you out as sheep in the midst of wolves

(Matthew 10:16 ULT) - This compares the danger that Jesus’ disciples would be in with the danger that sheep are in when they are surrounded by wolves.

See, I send you out among wicked people and you will be in danger from them as sheep are in danger when they are among wolves.

For the word of God is living and active and sharper than any two-edged sword

(Hebrews 4:12 ULT)

For the word of God is living and active and more powerful than a very sharp two-edged sword

(2) If people are not familiar with the item that something is compared to, use an item from your own culture. Be sure that it is one that could have been used in the cultures of the Bible. If you use this strategy, you may want to put the original item in a footnote.

See, I send you out as sheep in the midst of wolves,

(Matthew 10:16 ULT) - If people do not know what sheep and wolves are, or that wolves kill and eat sheep, you could use some other animal that kills another.

See, I send you out as chickens in the midst of wild dogs,

How often did I long to gather your children together, just as a hen gathers her chickens under her wings,

but you did not agree! (Matthew 23:37 ULT)

How often I wanted to gather your children together, as a mother closely watches over her infants, but you refused!

If you have faith even as small as a grain of mustard

(Matthew 17:20)

If you have faith even as small as a tiny seed,

(3) Simply describe the item without comparing it to another.

See, I send you out as sheep in the midst of wolves
See, I send you out among people who will want to harm you.

How often did I long to gather your children together, just as a hen gathers her chickens under her wings, but you did not agree! (Matthew 23:37 ULT)

How often I wanted to protect you, but you refused!

Symbolic Action

Description

A symbolic action is something that someone does in order to express a certain idea. For example, in some cultures people nod their head up and down to mean "Yes" or turn their head from side to side to mean "No". Symbolic actions do not mean the same things in all cultures. In the Bible, sometimes people perform symbolic actions and sometimes they only refer to the symbolic action.

Examples of symbolic actions

- In some cultures people shake hands when they meet to show that they are willing to be friendly.
- In some cultures people bow when they meet to show respect to each other.

Reason this is a translation issue

An action may have a meaning in one culture, and a different meaning or no meaning at all in another culture. For example, in some cultures raising the eyebrows means "I am surprised" or "What did you say?" In others cultures it means "Yes".

In the Bible people did things that had certain meanings in their culture. When we read the Bible we might not understand what someone meant if we interpret the action based on what it means in our own culture.

You (the translator) need to understand what people in the Bible meant when they used symbolic actions. If an action does not mean the same thing in your own culture, then you need to figure out how to translate what the action meant.

Examples from the Bible

Jairus fell down at Jesus' feet. (Luke 8:41 ULT)

Meaning of symbolic action: He did this to show great respect to Jesus.

Look, I stand at the door and knock. If anyone hears my voice and opens the door, I will come in to his home, and have a meal with him, and he with me. (Revelation 3:20 ULT)

Meaning of symbolic action: When people wanted someone to welcome them into their home, they stood at the door and knocked on it.

Translation Strategies

If people would correctly understand what a symbolic action meant to the people in the Bible, consider using it. If not, here are some strategies for translating it.

1. Tell what the person did and why he did it.
2. Do not tell what the person did, but tell what he meant.
3. Use an action from your own culture that has the same meaning. Do this only in poetry, parables, and sermons. Do not do this when there actually was a person who did a specific action.

Examples of Translation Strategies Applied

(1) Tell what the person did and why he did it.
Jairus fell down at Jesus' feet. (Luke 8:41 ULT)

Jairus fell down at Jesus' feet in order to show that he greatly respected him.

Look, I stand at the door and knock. (Revelation 3:20 ULT)

Look, I stand at the door and knock on it, asking you to let me in.

(2) Do not tell what the person did, but tell what he meant.

Jairus fell down at Jesus' feet. (Luke 8:41)

Jairus showed Jesus great respect.

Look, I stand at the door and knock. (Revelation 3:20)

Look, I stand at the door and ask you to let me in.

(3) Use an action from your own culture that has the same meaning.

Jairus fell down at Jesus' feet. (Luke 8:41 ULT) - Since Jairus actually did this, you should not substitute an action from your own culture.

Look, I stand at the door and knock. (Revelation 3:20 ULT) - Jesus was not standing at a real door. Rather he was speaking about wanting to have a relationship with people. So in cultures where it is polite to clear one's throat when wanting to be let into a house, you could use that.

Look, I stand at the door and clear my throat.

Synecdoche

Description

Synecdoche is a figure of speech in which a speaker uses a part of something to refer to the whole thing, or uses the whole to refer to a part.

- **My soul** exalts the Lord. (Luke 1:46 ULT)

Mary was very happy about what the Lord was doing, so she said "my soul," which means the inner, emotional part of herself, to refer to her whole self.

- **the Pharisees** said to him, “Look, why are they doing something that is not lawful...?” (Mark 2:24 ULT)

The Pharisees who were standing there did not all say the same words at the same time. Instead, it is more likely that one man representing the group said those words.

Reasons this is a translation issue

- Some readers may not recognize the synecdoche and thus misunderstand the words as a literal statement.
- Some readers may realize that they are not to understand the words literally, but they may not know what the meaning is.

Example from the Bible

- I looked on all the deeds that **my hands** had accomplished (Ecclesiastes 2:11 ULT)

“My hands" is a synecdoche for the whole person, because clearly the arms and the rest of the body and the mind were also involved in the person's accomplishments. The hands are chosen to represent the person because they are the parts of the body most directly involved in the work.

Translation Strategies

If the synecdoche would be natural and give the right meaning in your language, consider using it. If not, here is another option:

1. State specifically what the synecdoche refers to.

Examples of Translation Strategies Applied

(1) State specifically what the synecdoche refers to.

- “My soul exalts the Lord.” (Luke 1:46 ULT)
- “I exalt the Lord.”
- ...the Pharisees
- said to him (Mark 2:24 ULT)
- ...a representative of the Pharisees said to him...
- ...I looked on all the deeds that **my hands**

had accomplished... (Ecclesiastes 2:11 ULT)

Translate Unknowns

While working to translate the Bible, you (the translator) might find yourself asking: "How do I translate words like lion, fig tree, mountain, priest, or temple when people in my culture have never seen these things and we do not have a word for them?"

Description

Unknowns are things that occur in the source text that are not known to the people of your culture. The unfoldingWord® Translation Words pages and the unfoldingWord® Translation Notes will help you understand what they are. After you understand them, you will need to find ways to refer to those things so that people who read your translation will understand what they are.

We have here only five loaves of bread and two fish (Matthew 14:17 ULT)

Bread is a particular food made by mixing finely crushed grains with oil, and then cooking the mixture so that it is dry. (Grains are the seeds of a kind of grass.) In some cultures people do not have bread and do not know what it is.

Reason this is a translation issue

• Readers may not know some of the things that are in the Bible because those things are not part of their own culture.
• Readers may have difficulty understanding a text if they do not know some of the things that are mentioned in it.

Translation Principles

• Use words that are already part of your language if possible.
• Keep expressions short if possible.
• Represent God's commands and historical facts accurately.

Examples from the Bible

I will turn Jerusalem into piles of ruins, a hideout for jackals (Jeremiah 9:11 ULT)

Jackals are wild animals like dogs that live in only a few parts of the world. So they are not known in many places.

Beware of false prophets, those who come to you in sheep's clothing, but are truly ravenous wolves. (Matthew 7:15 ULT)

If wolves do not live where the translation will be read, the readers may not understand that they are fierce, wild animals like dogs that attack and eat sheep.

Then they tried to give Jesus wine that was mixed with myrrh. But he refused to drink it. (Mark 15:23 ULT)

People may not know what myrrh is and that it was used as a medicine.

to him who made great lights (Psalm 136:7 ULT)

Some languages have terms for things that give light, like the sun and fire, but they have no general term for lights.

Your sins...will be white like snow (Isaiah 1:18 ULT)
People in many parts of the world have not seen snow, but they may have seen it in pictures.

**Translation Strategies**

Here are ways you might translate a term that is not known in your language:

1. Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.
2. Substitute something similar from your language if doing so does not falsely represent a historical fact.
3. Copy the word from another language, and add a general word or descriptive phrase to help people understand it.
4. Use a word that is more general in meaning.
5. Use a word or phrase that is more specific in meaning.

**Examples of Translation Strategies Applied**

1. Use a phrase that describes what the unknown item is, or what is important about the unknown item for the verse being translated.
   
   Beware of false prophets, those who come to you in sheep's clothing, but are truly ravenous wolves
   
   . (Matthew 7:15 ULT)
   
   Beware of false prophets, those who come to you in sheep's clothing, but *are truly hungry and dangerous animals.*
   
   “Ravenous wolves” is part of a metaphor here, so the reader needs to know that they are very dangerous to sheep in order to understand this metaphor. (If sheep are also unknown, then you will need to also use one of the translation strategies to translate sheep, or change the metaphor to something else, using a translation strategy for metaphors. See Translating Metaphors.)

     We have here only five loaves of bread
   
   and two fish (Matthew 14:17 ULT)

   We have here only five *loaves of baked grain seeds* and two fish

2. Substitute something similar from your language if doing so does not falsely represent a historical fact.

   your sins...will be white like snow
   
   (Isaiah 1:18 ULT) This verse is not about snow. It uses snow in a figure of speech to help people understand how white something will be.

   your sins...will be white like milk your sins...will be white like the moon

3. Copy the word from another language, and add a general word or descriptive phrase to help people understand it.

   Then they tried to give Jesus wine that was mixed with myrrh

   . But he refused to drink it. (Mark 15:23 ULT) - People may understand better what myrrh is if it is used with the general word “medicine.”

   Then they tried to give Jesus wine that was mixed with a medicine called myrrh. But he refused to drink it.

   We have here only five loaves of bread
and two fish (Matthew 14:17 ULT) - People may understand better what bread is if it is used with a phrase that tells what it is made of (seeds) and how it is prepared (crushed and baked).

- We have here only five loaves of *baked crushed seed bread* and two fish

(4) Use a word that is more general in meaning.

- I will turn Jerusalem into piles of ruins, a hideout for *jackals*  
  (Jeremiah 9:11 ULT)

We have here only five loaves of bread

and two fish (Matthew 14:17 ULT)

- We have here only five *loaves of baked food* and two fish

(5) Use a word or phrase that is more specific in meaning.

- to him who made *great lights*  
  (Psalm 136:7 ULT)

We have here only five loaves of baked food and two fish

- to him who made *the sun and the moon*  
  (Psalm 136:7 ULT)

advice, advise, advisor, counsel, counselor, counsels

Definition:

The terms “counsel” and “advice” have the same meaning and refer to helping someone decide wisely about what to do in a certain situation. A wise “counselor” or “advisor” is someone who gives advice or counsel that will help a person make right choices.

- Kings often have official advisors or counselors to help them decide important matters that affect the people they are ruling.
- Sometimes the advice or counsel that is given is not good. Evil advisors may urge a king to take action or make a decree that will harm him or his people.

- Examples of human covenants include marriage covenants, business agreements, and treaties between countries.
- Throughout the Bible, God made several different covenants with his people.
- In some of the covenants, God promised to fulfill his part without conditions. For example, when God established his covenant with mankind promising to never destroy the earth again with a worldwide flood, this promise had no conditions for people to fulfill.

God

Definition:

In the Bible, the term “God” refers to the eternal being who created the universe out of nothing. God exists as Father, Son, and Holy Spirit. God's personal name is “Yahweh.”

- God has always existed; he existed before anything else existed, and he will continue to exist forever.
- He is the only true God and has authority over everything in the universe.
- God is perfectly righteous, infinitely wise, holy, sinless, just, merciful, and loving.
- He is a covenant-keeping God, who always fulfills his promises.
- People were created to worship God and he is the only one they should worship.
- God revealed his name as “Yahweh,” which means “he is” or “I am” or “the One who (always) exists.”
- The Bible also teaches about false “gods,” which are nonliving idols that people wrongly worship.

Translation Suggestions:

- Ways to translate “God” could include “Deity” or “Creator” or “Supreme Being” or “Supreme Creator” or “Infinite Sovereign Lord” or “Eternal Supreme Being.”
- Consider how God is referred to in a local or national language. There may also already be a word for “God” in the language being translated. If so, it is important to make sure that this word fits the characteristics of the one true God as described above.
- Many languages capitalize the first letter of the word for the one true God, to distinguish it from the word for a false god. Another way to make this distinction would be to use different terms for “God” and “god.”
- NOTE: In the biblical text, when a person who does not worship Yahweh speaks about Yahweh and uses the word “god,” it is acceptable to render the term without a capital letter in reference to Yahweh (see Jonah 1:6, 3:9).
- The phrase “I will be their God and they will be my people” could also be translated as “I, God, will rule over these people and they will worship me.”

Hebrew

Facts:

The term “Hebrew” refers in a very general sense to the people group descended from Abraham through the line of Isaac and Jacob.

- The specific word “Hebrew” can refer either to an individual person in the people group or to the language spoken by that people group.
- The vast majority of the Old Testament was written in the language called "Hebrew." However, in most cases in the New Testament, the specific term "Hebrew" probably refers to the Aramaic language rather than the Hebrew language.
- In different places in the Bible, the Hebrews were also called "Israelites" or "Jews." When translating, it is best to keep all three terms distinct in the text, as long as it is clear that these terms refer to the same people group.

lord, Lord, master, sir

Definition:

In the Bible, the term “lord” generally refers to someone who has ownership or authority over other people. In the Bible, however, the term is used to address many different kinds of people, including God.

- This word is sometimes translated as “master” when addressing Jesus or when referring to someone who owns slaves.
- Some English versions translate this as “sir” in contexts where someone is politely addressing someone of higher status.

When “Lord” is capitalized, it is a title that refers to God. (Note, however, that when it is used as a form of addressing someone or it occurs at the beginning of a sentence it may be capitalized and have the meaning of “sir” or “master.”)

- In the Old Testament, this term is also used in expressions such as “Lord God Almighty” or “Lord Yahweh” or “Yahweh our Lord.”
- In the New Testament, the apostles used this term in expressions such as “Lord Jesus” and “Lord Jesus Christ,” which communicate that Jesus is God.
- The term “Lord” in the New Testament is also used alone as a direct reference to God, especially in quotations from the Old Testament. For example, the Old Testament text has “Blessed is he who comes in the name of Yahweh” and the New Testament text has “Blessed is he who comes in the name of the Lord.”
- In the ULT and UST, the title “Lord” is only used to translate the actual Hebrew and Greek words that mean “Lord.” It is never used as a translation of God’s name (Yahweh), as is done in many translations.
- Some languages translate “Lord” as “Master” or “Ruler” or some other term that communicates ownership or supreme rule.
- In the appropriate contexts, many translations capitalize the first letter of this term to make it clear to the reader that this is a title referring to God.
- For places in the New Testament where there is a quote from the Old Testament, the term “Lord God” could be used to make it clear that this is a reference to God.

Translation Suggestions:

- This term can be translated with the equivalent of “master” when it refers to a person who owns slaves. It can also be used by a servant to address the person he works for.
- When it refers to Jesus, if the context shows that the speaker sees him as a religious teacher, it can be translated with a respectful address for a religious teacher, such as “master.”
- If the person addressing Jesus does not know him, “lord” could be translated with a respectful form of address such as “sir.” This translation would also be used for other contexts in which a polite form of address to a man is called for.
- When referring to God the Father or to Jesus, this term is considered a title, written as “Lord” (capitalized) in English.

love, beloved

Definition:

To love another person is to care for that person and do things that will benefit him. There are different meanings for "love" some languages may express using different words:

1. The kind of love that comes from God is focused on the good of others even when it doesn't benefit oneself. This kind of love cares for others, no matter what they do. God himself is love and is the source of true love.
   - Jesus showed this kind of love by sacrificing his life in order to rescue us from sin and death. He also taught his followers to love others sacrificially.
   - When people love others with this kind of love, they act in ways that show they are thinking of what will cause the others to thrive. This kind of love especially includes forgiving others.
   - In the ULT, the word "love" refers to this kind of sacrificial love, unless a Translation Note indicates a different meaning.

2. Another word in the New Testament refers to brotherly love, or love for a friend or family member.
   - This term refers to natural human love between friends or relatives.
   - The term can also be used in such contexts as, “They love to sit in the most important seats at a banquet.” This means that they “like very much” or “greatly desire” to do that.

3. The word “love” can also refer to romantic love between a man and a woman.

Translation Suggestions:

- Unless indicated otherwise in a Translation Note, the word “love” in the ULT refers to the kind of sacrificial love that comes from God.
- Some languages may have a special word for the kind of unselfish, sacrificial love that God has. Ways to translate this might include, “devoted, faithful caring” or “care for unselfishly” or “love from God.” Make sure that the word used to translate God’s love can include giving up one’s own interests to benefit others and loving others no matter what they do.
- Sometimes the English word “love” describes the deep caring that people have for friends and family members. Some languages might translate this with a word or phrase that means, “like very much” or “care for” or “have strong affection for.”
- In contexts where the word “love” is used to express a strong preference for something, this could be translated by “strongly prefer” or “like very much” or “greatly desire.”
- Some languages may also have a separate word that refers to romantic or sexual love between a husband and wife.
- Many languages must express “love” as an action. So for example, they might translate “love is patient, love is kind” as, “when a person loves someone, he is patient with him and kind to him.”

nation

Definition:
A nation is a large group of people ruled by some form of government. The people of a nation often have the same ancestors and share a common ethnicity.

- A “nation” usually has a well-defined culture and territorial boundaries.
- In the Bible, a “nation” could be a country (like Egypt or Ethiopia), but often it is more general and refers to a people group, especially when used in the plural. It is important to check the context.
- Nations in the Bible included the Israelites, the Philistines, the Assyrians, the Babylonians, the Canaanites, the Romans, and the Greeks, among many others.
- Sometimes the word “nation” was used figuratively to refer to the ancestor of a certain people group, as when Rebekah was told by God that her unborn sons were “nations” that would fight against each other. This could be translated as “the founders of two nations” or the “ancestors of two people groups.”
- The word translated as “nation” was also sometimes used to refer to “Gentiles” or to people who do not worship Yahweh. The context usually makes the meaning clear.

Translation Suggestions:
- Depending on the context, the word “nation” could also be translated as “people group” or “people” or “country.”
- If a language has a term for “nation” that is distinct from these other terms, then that term can be used wherever it occurs in the Bible text, as long as it is natural and accurate in each context.
- The plural term “nations” can often be translated as “people groups.”
- In certain contexts, this term could also be translated as “Gentiles” or “nonjews.”

priest, priesthood

Definition:

In the Bible, a priest was someone who was chosen to offer sacrifices to God on behalf of God's people. The “priesthood” was the name for the office or condition of being a priest.

- In the Old Testament, God chose Aaron and his descendants to be his priests for the people of Israel.
- The “priesthood” was a right and a responsibility that was passed down from father to son in the Levite clan.
- The Israelite priests had the responsibility of offering the people's sacrifices to God, along with other duties in the temple.
- Priests also offered regular prayers to God on behalf of his people and performed other religious rites.
- The priests pronounced formal blessings on people and taught them God's laws.
- In Jesus' time, there were different levels of priests, including the chief priests and the high priest.
- Jesus is our “great high priest” who intercedes for us in God's presence. He offered himself as the ultimate sacrifice for sin. This means that the sacrifices made by human priests are no longer needed.
- In the New Testament, every believer in Jesus is called a “priest” who can come directly to God in prayer to intercede for himself and other people.
- In ancient times, there were also pagan priests who presented offerings to false gods such as Baal.

Translation Suggestions:

- Depending on the context, the term “priest” could be translated as “sacrifice person” or “God's intermediary” or “sacrificial mediator” or “person God appoints to represent him.”
- The translation of “priest” should be different from the translation of “mediator.”
- Some translations may prefer to always say something like “Israelite priest” or “Jewish priest” or “Yahweh's priest” or “priest of Baal” to make it clear that this does not refer to a modern-day type of priest.
- The term used to translate “priest” should be different from the terms for “chief priest” and “high priest” and “Levite” and “prophet.”

**seed, semen**

**Definition:**

A "seed" is the part of a plant that gets planted in the ground to reproduce more of the same kind of plant. However, in the Bible the term "seed" is used figuratively to mean several different things.

- The term "seed" is used figuratively and euphemistically to refer to the tiny cells inside a man that combine with cells of a woman to cause a baby to grow inside her. A collection of these cells is called "semen."
- Related to this, "seed" is also used to refer to a person's offspring or descendants.
- This word often has a plural meaning, referring to more than one seed grain or more than one descendant.
- In the parable of the farmer planting seeds, Jesus compared his seeds to the Word of God, which is planted in people's hearts in order to produce good spiritual fruit.
- The apostle Paul also uses the term “seed” to refer to the Word of God.

**Translation Suggestions:**

- For a literal seed, it is best to use the literal term for “seed” that is used in the target language for what a farmer plants in his field.
- The literal term should also be used in contexts where it refers figuratively to God's Word.
- For the figurative use that refers to people who are of the same family line, it may be more clear to use the word “descendant” or “descendants” instead of "seed." Some languages may have a word that means “children and grandchildren.”
- For a man or woman's “seed,” consider how the target expresses this in a way that will not offend or embarrass people. (See: euphemism)

servant, serve, slave, worker, young man, young women

Definition:

The term “serve” generally means to do work, and the concept can be applied in a wide variety of contexts. The term refers to a person who works for (or obeys) another person, either by choice or by force. In the Bible, any of the following people might be called a “servant:” a slave, a young female worker, a young male worker, someone who obeys God, and others. In biblical times, there was less of a difference between a “servant” and a “slave” than there is today. Both servants and slaves were an important part of a household, and many servants were treated almost like members of the family. Sometimes a servant would choose to become a lifetime servant to his master.

- A slave was a kind of servant who was the property of the person he worked for. The person who bought a slave was called his “owner” or “master.” Some masters treated their slaves very cruelly, while other masters treated their slaves very well, as a servant who was a valued member of the household.
- In ancient times, some people willingly became slaves to a person they owed money to in order to pay off their debt to that person.
- In the context of a person serving guests, this term means “care for” or “serve food to” or “provide food for.” When Jesus told the disciples to “serve” the fish to the people, this could be translated as, “distribute” or “hand out” or “give.”
- In the Bible, the phrase “I am your servant” was used as a sign of respect and service to a person of higher rank, such as a king. It did not mean that the person speaking was an actual servant.

sword, swordsmen

Definition:
A sword is a flat-bladed metal weapon used to cut or stab. It has a handle and a long, pointed blade with a very sharp cutting edge.

- In ancient times the length of a sword's blade was about 60 to 91 centimeters.
- Some swords have two sharp edges and are called “double-edged” or “two-edged” swords.
- Jesus' disciples had swords for self defense. With his sword, Peter cut off the ear of the high priest's servant.
- Both John the Baptist and the apostle James were beheaded with swords.

Translation Suggestions

- A sword is used as a metaphor for God's word. God's teachings in the Bible exposed people's innermost thoughts and convicted them of their sin. In a similar way, a sword cuts deeply, causing pain. (See: Metaphor)
- One way to translate this figurative use would be, “God's word is like a sword, which cuts deeply and exposes sin.”
- Another figurative use of this term occurred in the book of Psalms, where the tongue or speech of a person was compared to a sword, which can injure people. This could be translated as “the tongue is like a sword that can badly injure someone.”
- If swords are not known in your culture, this word could be translated with the name of another long-bladed weapon that is used to cut or stab.
- A sword could also be described as a “sharp weapon” or “long knife.” Some translations could include a picture of a sword.

voice

Definition:
The term “voice” refers to audible sound that a person makes when speaking or communicating. In the Bible, the term can be used figuratively to refer to the concepts of sound, communication, and/or obedience.

Translation Suggestions

• The expression “to hear someone's voice” can mean either “to hear someone speaking” or “to heed what someone says.”
• The Bible describes God as "speaking" and having a "voice," even though God doesn't have a physical body in the same way a human being does.
• The term "voice" sometimes implies the presence of a person, as in this statement: “A voice is heard in the desert saying, 'Prepare the way of the Lord.'” This could be translated as “A person is heard calling out in the desert....” (See: synecdoche)
• However, sometimes the word “voice” is used for objects that cannot literally speak, such as when David exclaims in the psalms that the heavens have a “voice” that reaches the whole earth. This means that the objects in the sky communicate something to human beings about God the Creator. (See: metaphor)

Wheat is a type of grain that people grow for food. When the Bible mentions “grain” or “seeds,” it is often talking about wheat grain or seeds.

- After threshing, the chaff surrounding the grain seed is separated from the grain by winnowing and is thrown away.
- People grind the wheat grain into flour, and use this for making bread.

wine, wineskin, new wine

Definition:

In the Bible, the term “wine” refers to a kind of fermented drink made from the juice of a fruit called grapes. Wine was stored in “wineskins,” which were containers made out of animal skin.

- The term “new wine” referred to grape juice that had just been taken from the grape and was not fermented yet. Sometimes the term “wine” also referred to unfermented grape juice.
- To make wine, grapes are crushed in a winepress so that the juice comes out. The juice eventually ferments and alcohol forms in it.
- In Bible times, wine was the normal drink with meals. It did not have as much alcohol as present-day wine has.
- Before wine was served for a meal, it was often mixed with water.
- A wineskin that was old and brittle would get cracks in it, which allowed the wine to leak out. New wineskins were soft and flexible, which meant they did not tear easily and could store the wine safely.
- If wine is unknown in your culture, it could be translated as “fermented grape juice” or “fermented drink made from a fruit called grapes” or “fermented fruit juice.” (See: How to Translate Unknowns)
- Ways to translate “wineskin” could include “bag for wine” or “animal skin wine bag” or “animal skin container for wine.”

wise men, advisor

Definition:

The term “wise men” simply means people who are wise. In the Bible, however, the term "wise men" often refers to men with unusual knowledge and abilities who served in a king's royal court as advisors to the king or other high officials.

Old Testament

• Sometimes the term "wise men" is explained in the text as "prudent men" or “men with understanding.” This refers to men who act wisely and righteously because they obey God.
• The "wise men" who served pharaohs or other kings were often scholars who studied the stars, especially looking for special meanings for the patterns that the stars made in their positions in the sky. Sometimes "wise men" also practiced divination of performed acts of magic, probably by the power of evil spirits.
• Often wise men were expected to explain the meanings of dreams. For example, King Nebuchadnezzar demanded that his wise men describe his dreams and tell him what they meant, but none of them was able to do this, except Daniel who had received this knowledge from God.

New Testament

• The group of men who came from eastern regions to worship Jesus were called “magi,” which is often translated as “wise men,” since this probably refers to scholars who served a ruler of an eastern country.

Translation Suggestions:

• Depending on the context, the term “wise men” could be translated using the term “wise” or with a phrase such as “gifted men” or “educated men” or some other term that refers to men who have an important job working for a ruler.
• When the term “wise men” simply means people who are wise, the word “wise” should be translated in the same or similar way to how it is translated elsewhere in the Bible.

Yahweh

Facts:

The term “Yahweh” is God's personal name in the Old Testament. The specific origin of this name is unknown, but it is probably derived from the Hebrew verb meaning, “to be.”

- Following tradition, many Bible versions use the term “LORD” or “the LORD” to represent “Yahweh.” This tradition resulted from the fact that historically, the Jewish people became afraid of mispronouncing Yahweh’s name and started saying “Lord” every time the term “Yahweh” appeared in the text. Modern Bibles write “LORD” with all capital letters to show respect for God’s personal name and to distinguish it from “Lord” which is a different Hebrew word.
- The ULT and UST texts always translate this term as, “Yahweh,” in agreement with the Hebrew text of the Old Testament.
- The term “Yahweh” never occurs in the original text of the New Testament; only the Greek term for “Lord” is used, even when quoting the Old Testament.
- In the Old Testament, when God spoke about himself, he would often use his name instead of a pronoun.

Translation Suggestions:

- “Yahweh” could be translated by a word or phrase that means “I am” or “living one” or “the one who is” or “he who is alive.”
- This term could also be written in a way that is similar to how “Yahweh” is spelled.
- Some church denominations prefer not to use the term “Yahweh” and instead use the traditional rendering, “LORD.” An important consideration is that this may be confusing when read aloud because it will sound the same as the title “Lord.” Some languages may have an affix or other grammatical marker that could be added to distinguish “LORD” as a name (Yahweh) from “Lord” as a title.
- It is best if possible to keep the name Yahweh where it literally occurs in the text, but some translations may decide to use only a pronoun in some places, to make the text more natural and clear.
- Introduce the quote with something like, “This is what Yahweh says.”

Zion, Mount Zion

Definition:

Originally, the term “Zion” or “Mount Zion” referred to a stronghold or fortress that King David captured from the Jebusites. Both these terms became other ways of referring to Jerusalem.

- Mount Zion and Mount Moriah were two of the hills that the city of Jerusalem was located on. Later, “Zion” and “Mount Zion” became used as general terms to refer to both of these mountains and to the city of Jerusalem. Sometimes they also referred to the temple that was located in Jerusalem. (See: metonymy)
- David named Zion, or Jerusalem, the “City of David.” This is different from David’s hometown, Bethlehem, which was also called the City of David.
- The term “Zion” is used in other figurative ways, to refer to Israel or to God’s spiritual kingdom or to the new, heavenly Jerusalem that God will create.
